STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

DEPARTMENT OF ADMINISTRATION

Office: (401) 574-8430

OFFICE of MANAGEMENT & BUDGET

One Capitol Hill

Providence, RI 02908-5890

From: Jonathan Womer, Director of the Office of Management and Budget

To: Board of Directors, Rhode Island Commerce Corporation

Re: Rebuild Rhode Island Tax Credit Applications

Date: May 21, 2018

The staff of the Rhode Island Commerce Corporation (the "Corporation") has informed the Office of Management and Budget ("OMB") that it intends to recommend to the Corporation's Board of Directors (the "Board") two new projects for the receipt of tax credits under the Rebuild Rhode Island Tax Credit in an amount not to exceed \$3,915,000.00. That recommendation is as follows:

1. That the application submitted by Electric Boat Corporation be approved for tax credits in a maximum amount of \$2,000,000.00.

2. That the application submitted by Infinity Meat Solutions, LLC be approved for tax credits in a maximum amount of \$1,915,000.00

As of April 10, 2018, the Corporation had approved tax credits and/or loans under the program in the amount of \$95,389,827.92. The approval of an additional \$3,915,000.00 in tax credits would bring the cumulative total of approved credits and/or loans to \$99,304,827.92. Currently thirty-eight and half million dollars have been appropriated into the Rebuild Rhode Island Tax Credit Fund. Additional funding is expected in future legislative sessions and section 42-64.20-5(f) of the Rhode Island General Laws authorized aggregate tax credits and/or loans under the Rebuild Rhode Island Tax Credit program in an amount not to exceed \$150 million. Accordingly, the existing and anticipated revenue capacity for the Rebuild Rhode Island Tax Credit program exceeds the total amount of credits and/or loans that are proposed for approval. As a result, OMB confirms that the additional amount of credits and/or loans proposed above, i.e. \$3,915,000.00, does not exceed the existing and anticipated revenue capacity of the state for the Rebuild Rhode Island Tax Credit program. In addition, OMB confirms that, with the approval of the proposed credits and/or loans, the aggregate credits and/or loans approved by the Corporation under the Rebuild Rhode Island program will not exceed the maximum aggregate credits and/or loans allowed under the program.

Furthermore, based on information provided by the Corporation staff concerning the anticipated completion schedule of the projects that are the subject of these applications and the likely distribution of credits and/or loan proceeds over the five-year payment period, OMB anticipates the budget impact to the state of the credits and/or loans, if approved, in the year of application and in subsequent years will be as set forth in the attached Exhibit A.

The memorandum constitutes OMB's written confirmation pursuant to RIGL § 42-64.20-6(a)(4) and pursuant to Rule 12(a)(3) of the Rules and Regulations for the Rebuild Rhode Island Tax Credit Program. Pursuant to RIGL § 42-64.20-5(m), any disbursements to support the redemption of tax credits for 90% of their value are subject to appropriations, and applicants should be notified accordingly.

Rhode Island Commerce Corporation Rebuild Rhode Island Tax Credits – Economic Impact Analysis Electric Boat Corporation Application

Introduction

The Rhode Island Commerce Corporation (the "Corporation") may issue Rebuild Rhode Island tax credits to Electric Boat Corporation, a subsidiary of General Dynamics (the "Sponsor"). The credits would be issued in connection with the Sponsor's proposed investment in the development of new manufacturing facilities at its existing site in the Quonset Business Park to support production of a new generation of ballistic missile submarines. By 2028, these new facilities would directly support more than 1,300 new jobs.

The Sponsor estimates the total cost of the project to be \$792.1 million. The Sponsor is requesting Rebuild Rhode Island tax credits for the project totaling \$2.0 million, and an exemption from state sales and use taxes on materials used in construction, valued at \$18.0 million.

This analysis was prepared by Appleseed, a consulting firm with more than twenty years of experience in economic impact analysis.

Jobs Analysis

Construction

As shown in Table 1, the Sponsor's estimate of total project cost is approximately \$792.1 million.

Table 1: Estimated total project cost (\$ millions)

Component	Estimated cost
Buildings	\$432.9
Equipment	115.0
Fixtures	158.8
Overhead	85.4
Total	\$792.1

After excluding certain expenditures that do not have a direct, current impact on Rhode Island's economy (such as spending on equipment and fixtures purchased from other states)¹, spending on development of the proposed new facilities is estimated to total approximately \$550.1 million. Appleseed estimates that direct expenditures of \$550.1 million will directly and indirectly generate:

¹ We assume, however, that on-site installation costs associated with major fixtures account for 20 percent of total spending on fixtures.

- 3,648 person-years² of work in Rhode Island, with \$242.2 million in earnings (in 2022 dollars);
- Approximately \$647.2 million in statewide economic output³; and
- A one-time increase of \$369.8 million in Rhode Island's GDP.

These impacts are summarized below in Table 2. The project's *direct impact* is the impact of the company's direct spending on design and construction. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

Table 2: Direct, indirect and induced impact of construction and related spending (employment in person-years; income, value-added and output in millions of 2022 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	3,147	\$207.3	\$311.5	\$550.1
Indirect Effect	501	34.9	58.3	\$97.1
Total Effect	3,648	\$242.2	\$369.8	\$647.2

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$550.1 million would generate a projected one-time increase of approximately \$14.194 million in taxes paid to the State during construction, including:

- \$9.083 million in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project;
- \$3.963 million in state sales taxes paid on those workers' taxable household spending; and
- \$1.148 million in state business taxes.

The activity reflected in Table 2 will occur from 2018 through the end of 2032. Most of this activity, however, is concentrated in the project's first five years; more than half of all construction spending occurs between mid-2018 and the end of 2022.

The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island.

² A person-year is equivalent to the time worked by one person who is employed full-time for a year. It could for example represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years.

³ Output is a measure of the total sales by Rhode Island companies (including the "sale" of labor by Rhode Island households) generated by the project.

Table 3: Anticipated wages during construction

	0
Occupation	RI median hourly wage ⁴
Architect	\$42.50
Construction manager	\$50.86
Carpenter	\$22.42
Electrician	\$25.26
Plumber	\$24.84
Painter	\$18.69
Laborer	\$18.68

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

Annual operations

The Sponsor will begin hiring new employees in 2018 to staff its expanded operations in the Quonset Business Park. The number of workers directly employed at the Sponsor's new facility is expected to peak in 2028 at 1,309, with the direct payroll for these jobs in 2028 estimated to total \$78.96 million. Using IMPLAN, Appleseed estimates (as shown in Table 2) that in 2028, ongoing operations would directly and indirectly support:

- 1,743 full-time-equivalent jobs in Rhode Island, with approximately \$114.1 million in annual earnings (in 2028 dollars);
- \$316.6 million in annual statewide economic output; and
- An increase of \$125.4 million in Rhode Island's annual GDP.

Table 4: Direct, indirect and total incremental impact of Electric Boat's expansion in Rhode Island, 2028 (employment in FTE; earnings, value-added and output in millions of 2028 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	1,309	\$79.0	\$76.6	\$232.3
Indirect Effect	434	\$35.1	\$48.8	\$84.3
Total Effect	1,743	\$114.1	\$125.4	\$316.6

In addition to the impacts on employment, earnings, output and state GDP cited in Table 4, ongoing operations would generate a projected gross increase of approximately \$6.682 million in taxes paid to the state in 2028, including:

⁴ Rhode Island Department of Labor and Training, Occupational Employment Statistics, 2016

- \$4.276 million in state personal income taxes paid by Rhode Island workers employed in the Sponsor's expanded operations in Rhode Island, or whose jobs are indirectly attributable to those operations;
- \$1.866 million in state sales taxes paid on those workers' taxable household spending;
- \$540,000 in state business taxes.

Workers employed as a result of the Sponsor's expansion in Rhode Island could be drawn from communities throughout the Providence-Warwick RI-MA NECTA.

Impact

The state fiscal impact of the requested tax credits and sales tax exemption is approximately \$20 million in foregone state tax revenue. Direct and indirect economic and fiscal benefits of the proposed project include an estimated increase in annual state GDP (in 2028) of approximately \$125.4; the associated job creation; and a gross increase of nearly \$79.8 million in personal income, sales and business tax revenues directly and indirectly generated by the project during the construction phase, and by ongoing operations during the twelve years from 2023 through 2034.

In addition to the economic and tax revenue impacts cited above, the proposed project would benefit Rhode Island in several other ways:

- By providing an opportunity for Rhode Island to expand its industrial base facilities, knowledge and skilled workers in a segment of the defense industry that has significant potential for further growth
- By continuing to expand and diversify the state's ocean economy
- By increasing payments in lieu of taxes (PILOTs) paid to local government

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the Rebuild Rhode Island program mitigate other risks to the state. In particular, the completion risk (i.e., the risk that the project is not completed) is mitigated by the fact that the tax credits will be issued only upon completion of the development. The risk of project cost overruns is mitigated by the fact that the credits capped at the amount set forth above. In addition, if project costs come in lower than anticipated, the value of the credits will be reduced accordingly.

EXHIBIT 1

Rhode Island Commerce Corporation Qualified Jobs Incentive Tax Credits – Economic Impact Analysis Advertising Ventures, Inc. Application

Introduction

The Rhode Island Commerce Corporation (the "Corporation") may issue Qualified Jobs Incentive tax credits to Advertising Ventures, Inc. doing business as (add)ventures ("the Company), a provider of advertising and communications services. The credits would be issued in connection with the Company's decision to relocate its offices in Providence to an existing building the Company is acquiring in East Providence. In conjunction with this move, the Company would by January 2019 increase the number of people it employs in Rhode Island from 55 to 65.

The Company is requesting Qualified Jobs Incentive tax credits with an estimated value of \$260,000.

This analysis was prepared by Appleseed, a consulting firm with more than twenty years of experience in economic impact analysis.

Jobs Analysis

Capital spending

The Company is not seeking any state tax benefits in connection with any costs it might incur in preparing, or relocating to, its proposed new offices in East Providence.

Annual operations

As noted above, the Company intends to hire 10 additional workers (managers and supporting staff) at its new East Providence location by January, 2019. The median annual salary for these employees would be approximately \$60,000.

Based on data provided by the Company, and using the IMPLAN input-output modeling system, Appleseed estimates that in 2019, ongoing operations associated with these 10 additional full-time jobs the Company would be committed to relocating or creating and maintaining in Rhode Island would directly and indirectly support:

- 17 full-time-equivalent (FTE) jobs in Rhode Island;
- Nearly \$1.1 million in annual earnings (in 2019 dollars);
- More than \$3.3 million in statewide economic output⁵; and
- An increase of \$1.7 million in Rhode Island's annual GDP.

⁵ Output is a measure of the total sales by Rhode Island companies (including the "sale" of labor by Rhode Island households) directly and indirectly generated by the expansion of the Company's Rhode Island operations.

These impacts are summarized below in Table 1. The *direct impact* of the Company's operations reflects the company's direct employment, its direct spending on wages and salaries, the value its operations add to Rhode Island's GDP, and the total value of the goods and services it produces. Its *indirect impact* is the effect of the Company's spending on purchases of goods and services from other Rhode Island businesses.

Table 1: Direct, indirect and total annual impact of ongoing operations (employment in FTE; income, value-added and output in millions of 2019 dollars)

	Jobs	Earnings	Value added	Output
Direct Effect	10	\$0.7	\$1.1	\$2.3
Indirect Effect	7	0.4	0.6	1.0
Total Effect	17	\$1.1	\$1.7	\$3.3

In addition to the impacts on employment, earnings, output and state GDP cited above, the Company's operations in Rhode Island would generate a projected increase of approximately \$62,000 in annual state tax revenues, including:

- \$40,000 in state personal income taxes paid by workers newly employed by the Company at its new location in Rhode Island, or by Rhode Island workers whose jobs are indirectly attributable to the Company's new Rhode Island operations;
- \$17,000 in state sales taxes paid on those workers' taxable household spending; and
- \$5,000 in state business taxes.

Benefits

All full-time Company employees are eligible for a comprehensive package of benefits, including health insurance (with 75 percent of premiums paid by the Company), optional dental and AFLAC plans, life and disability insurance, a 401(k) plan with a 3 percent Company match after six months, Flexible Spending Accounts and an Employee Assistance Program., 15 vacation days and 9 paid holidays. The Company also offers Section 125 plans, which allow employees to pay employee benefit premiums with pre-tax dollars.

Hiring

The Company typically posts available jobs on its website and on social media, and on job sites such as Indeed.com and Glassdoor. Candidates are typically screened by phone, followed by two in-person interviews. After hiring and initial orientation, new employees also undergo three-month, six-month and (subsequently) regular annual reviews.

Impact

The state fiscal impact of the requested tax credits is estimated to be approximately \$260,000 in foregone state revenue. Direct and indirect economic and fiscal benefits of the proposed project include the estimated increase in annual state GDP of \$1.7 million, the estimated associated job creation, and a gross increase of approximately \$744,000 in personal income, sales and business tax revenues during the twelve-year commitment period beginning in 2019. These benefits are detailed in the foregoing analysis.

In addition to the economic and tax revenue impacts cited above, the Company's expansion would highlight Rhode Island's attractiveness as a location for professional, technical and creative services companies.

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the Qualified Jobs Incentive program mitigate risk to the state. The value of Qualified Jobs Incentive tax credits would be determined on the basis of the number of people actually employed and the wages actually paid by the Company.

EXHIBIT 1

Rhode Island Commerce Corporation Qualified Jobs Incentive Tax Credits – Economic Impact Analysis iXblue Defense Systems, Inc. Application

Introduction

The Rhode Island Commerce Corporation (the "Corporation") may issue Qualified Jobs Incentive tax credits to iXblue Defense Systems, Inc. ("the Company"), a global provider of navigation, positioning and imaging systems and services for defense and other industries. The credits would be issued in connection with the Company's decision to relocate an existing operation from Natick, Massachusetts to either Lincoln or Woonsocket, Rhode Island, and to expand at its new location. As of January 2019, the Company would employ 17 people in Rhode Island, increasing to 22 by January 2020.

The Company is requesting Qualified Jobs Incentive tax credits with an estimated value of \$1,032 million.

This analysis was prepared by Appleseed, a consulting firm with more than twenty years of experience in economic impact analysis.

Jobs Analysis

Capital investment

The Company is not planning any capital investment in connection with its move to Rhode Island.

Annual operations

As noted above, the Company intends to employ 22 people (managers and supporting staff) at its new Rhode Island location by 2020. The median annual salary for these employees would be \$110,000.

Based on data provided by the Company, and using the IMPLAN input-output modeling system, Appleseed estimates that in 2020, ongoing operations associated with the 22 full-time jobs the Company would be committed to relocating or creating and maintaining in Rhode Island would directly and indirectly support:

- 36 full-time-equivalent (FTE) jobs in Rhode Island;
- \$3.6 million in annual earnings (in 2020 dollars);
- \$9.9 million in statewide economic output; and
- An increase of \$5.0 million in Rhode Island's annual GDP.

These impacts are summarized below in Table 1. The *direct impact* of the Company's operations reflects the company's direct employment, its direct spending on wages and salaries, the value its operations add to Rhode Island's GDP, and the total value of the goods and services it produces. Its *indirect impact* is the effect of the Company's spending on purchases of goods and services from other Rhode Island businesses.

Table 1: Direct, indirect and total annual impact of ongoing operations (employment in FTE; income, value-added and output in millions of 2020 dollars)

	Jobs	Earnings	Value added	Output
Direct Effect	22	\$2.6	\$3.5	\$7.5
Indirect Effect	14	1.0	1.4	2.4
Total Effect	36	\$3.6	\$4.9	\$9.9

In addition to the impacts on employment, earnings, output and state GDP cited above, the Company's operations in Rhode Island would generate a projected increase of approximately \$210,000 in annual state tax revenues, including:

- \$134,000 in state personal income taxes paid by workers newly employed by the Company at its new location in Rhode Island, or by Rhode Island workers whose jobs are indirectly attributable to the Company's new Rhode Island operations;
- \$59,000 in state sales taxes paid on those workers' taxable household spending; and
- \$17,000 in state business taxes.

Benefits

All full-time Company employees are eligible for a comprehensive package of benefits, including 100 percent employer-paid health, dental and vision insurance; health reimbursement and flexible spending accounts; employer-paid long-term and short-term disability insurance; a 401(k) plan; 20 days paid vacation (25 days after five years), and 5 days of paid sick leave.

Hiring

Because most of its positions are senior-level technical jobs, the Company typically uses an executive recruiter, who seeks to identify candidates both from the local area and from elsewhere in the eastern U.S. The Company offers to relocate candidates who are hired from outside the local area.

Impact

The state fiscal impact of the requested tax credits is estimated to be approximately \$1.032 million in foregone state revenue. Direct and indirect economic and fiscal benefits of the proposed project include the estimated increase in annual state GDP of \$4.9 million, the estimated associated job creation, and a gross increase of nearly \$2.472 million in personal income, sales and business tax revenues during the twelve-year commitment period beginning in 2019. These benefits are detailed in the foregoing analysis.

In addition to the economic and tax revenue impacts cited above, the Company's new facility would benefit Rhode Island in other ways, including:

- Highlighting Rhode Island's attractiveness as a location for global defense-related companies
- Adding to the growth of the state's ocean economy

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the Qualified Jobs Incentive program mitigate risk to the state. The value of

Qualified Jobs Incentive tax credits would be determined on the basis of the number of people actually employed and the wages actually paid by the Company.

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

DEPARTMENT OF ADMINISTRATION

Office: (401) 574-8430

OFFICE of MANAGEMENT & BUDGET

One Capitol Hill

Providence, RI 02908-5890

From: Jonathan Womer, Director of the Office of Management and Budget

To: Board of Directors, Rhode Island Commerce Corporation

Re: Rebuild Rhode Island Tax Credit Applications

Date: May 21, 2018

The staff of the Rhode Island Commerce Corporation (the "Corporation") has informed the Office of Management and Budget ("OMB") that it intends to recommend to the Corporation's Board of Directors (the "Board") two new projects for the receipt of tax credits under the Rebuild Rhode Island Tax Credit in an amount not to exceed \$3,915,000.00. That recommendation is as follows:

1. That the application submitted by Electric Boat Corporation be approved for tax credits in a maximum amount of \$2,000,000.00.

2. That the application submitted by Infinity Meat Solutions, LLC be approved for tax credits in a maximum amount of \$1,915,000.00

As of April 10, 2018, the Corporation had approved tax credits and/or loans under the program in the amount of \$95,389,827.92. The approval of an additional \$3,915,000.00 in tax credits would bring the cumulative total of approved credits and/or loans to \$99,304,827.92. Currently thirty-eight and half million dollars have been appropriated into the Rebuild Rhode Island Tax Credit Fund. Additional funding is expected in future legislative sessions and section 42-64.20-5(f) of the Rhode Island General Laws authorized aggregate tax credits and/or loans under the Rebuild Rhode Island Tax Credit program in an amount not to exceed \$150 million. Accordingly, the existing and anticipated revenue capacity for the Rebuild Rhode Island Tax Credit program exceeds the total amount of credits and/or loans that are proposed for approval. As a result, OMB confirms that the additional amount of credits and/or loans proposed above, i.e. \$3,915,000.00, does not exceed the existing and anticipated revenue capacity of the state for the Rebuild Rhode Island Tax Credit program. In addition, OMB confirms that, with the approval of the proposed credits and/or loans, the aggregate credits and/or loans approved by the Corporation under the Rebuild Rhode Island program will not exceed the maximum aggregate credits and/or loans allowed under the program.

Furthermore, based on information provided by the Corporation staff concerning the anticipated completion schedule of the projects that are the subject of these applications and the likely distribution of credits and/or loan proceeds over the five-year payment period, OMB anticipates the budget impact to the state of the credits and/or loans, if approved, in the year of application and in subsequent years will be as set forth in the attached Exhibit A.

The memorandum constitutes OMB's written confirmation pursuant to RIGL § 42-64.20-6(a)(4) and pursuant to Rule 12(a)(3) of the Rules and Regulations for the Rebuild Rhode Island Tax Credit Program. Pursuant to RIGL § 42-64.20-5(m), any disbursements to support the redemption of tax credits for 90% of their value are subject to appropriations, and applicants should be notified accordingly.

Rhode Island Commerce Corporation Rebuild Rhode Island and Qualified Jobs Incentive Tax Credits – Economic Impact Analysis

Infinity Meat Solutions LLC Application

Introduction

The Rhode Island Commerce Corporation (the "Corporation") may issue Rebuild Rhode Island and Qualified Jobs Incentive tax credits to Infinity Meat Solutions LLC ("the Company"), which is owned by Retail Business Services LLC (RBS). RBS provides a range of support services to 2,100 stores and distribution centers in 23 U.S. states that are owned by or affiliated with RBS's parent company, Netherlands-based Ahold Delhaize, one of the world's largest food retailers.

The credits would be issued in connection with the Company's decision to locate a new facility in Rhode Island for preparation, packaging and distribution of fresh meat products. The new facility would supply Ahold-owned or affiliated stores, distribution centers and online retailers in New England and New York.

The new facility would be developed in Quonset Business Park in North Kingstown, at an estimated total cost (excluding operating costs) of \$110.2 million. It would be staffed and operated by Cargill, Inc., a Minnesota-based worldwide provider of food, agricultural, industrial and financial products and services. By its third year of operation, the facility is expected to employ 702 full-time workers.

The Company is requesting:

- \$1.915 million in Rebuild Rhode Island tax credits;
- An exemption from sales and use taxes due on construction materials and furnishings, with an estimated value of \$1.8 million; and
- \$9.484 million in Qualified Jobs Incentive tax credits.

This analysis was prepared by Appleseed, a consulting firm with more than twenty years of experience in economic impact analysis.

Jobs Analysis

Construction

As shown in Table 1, the Company estimates the total cost of building and equipping its new, 200,000 square-foot facility at \$110.2 million.

Table 1: Infinity Meat Solutions estimated total project cost (\$ millions)

Component	Estimated cost
Site development	\$15.3
Building construction	44.1
Contingency	10.0
Process equipment, other	40.8
Total	\$110.2

After excluding certain costs that do not have a direct impact on Rhode Island's economy (such as site acquisition and process equipment, which we assume will be procured out-of-state), Appleseed estimates that the Company will spend approximately \$64.8 million in Rhode Island on construction of the plant. Appleseed estimates that direct expenditures of approximately \$65.2 million will directly and indirectly generate:

- 469 person-years⁶ of work in Rhode Island, with \$30.7 million in earnings (in 2019) dollars);
- Approximately \$76.0 million in statewide economic output⁷; and
- A one-time increase of \$44.2 million in Rhode Island's GDP.

These impacts are summarized below in Table 2. The project's *direct impact* is the impact of the company's direct spending on design and construction. Its indirect impact is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

Table 2: Direct, indirect and induced impact of construction and related spending (employment in person-years; income, value-added and output in millions of 2019 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	405	\$26.4	\$37.4	\$64.8
Indirect Effect	64	4.3	6.8	11.2
Total Effect	469	\$30.7	44.2	\$76.0

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$64.8 million would generate a projected one-time increase of approximately \$1.798 million in taxes paid to the State during construction, including:

⁶ A person-year is equivalent to the time worked by one person who is employed full-time for a year. It could for example represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years.

Output is a measure of the total sales by Rhode Island companies (including the "sale" of labor by

Rhode Island households) generated by the project.

- \$1.151 million in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project;
- \$502,000 in state sales taxes paid on those workers' taxable household spending; and
- \$145,000 in state business taxes.

Most of the activity reflected in Table 2 is assumed occur between the summer of 2018 and the fall of 2019. The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island.

Table 3: Anticipated wages during construction

Occupation	RI median hourly wage ⁸
Architect	\$42.50
Construction manager	\$50.86
Carpenter	\$22.42
Electrician	\$25.26
Plumber	\$24.84
Painter	\$18.69
Laborer	\$18.68

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

Annual operations

As noted above, Cargill, Inc., the Company's operating partner, would employ 378 full-time workers at the Company's new Rhode Island facility in its first year (which for purposes of this analysis is assumed to be 2020), rising to 702 in its third year. Table 3 summarizes the categories in which these jobs will be created, and the median salary for each category. The median across all categories would be \$32,620.

Table 3: Projected employment, third year of operation

Job category	New positions (Year 3)	Median salary
General management	16	\$83,660
Operations and distribution	637	32,070
Engineers	49	51,630
Total	702	

⁸ Rhode Island Department of Labor and Training, Occupational Employment Statistics, 2016

Based on data provided by the Company, and using the IMPLAN input-output modeling system, Appleseed estimates that in year 3, ongoing operations associated with full-time jobs the Company would be committed to creating and maintaining will directly and indirectly support:

- 963 jobs in Rhode Island;
- \$37.1 million in annual earnings (in 2022 dollars);
- \$252.1 million in statewide economic output; and
- An increase of \$58.3 million in Rhode Island's annual GDP.

These impacts are summarized below in Table 4.

Table 4: Direct, indirect and total annual impact of ongoing operations (employment in FTE; income, value-added and output in millions of 2022 dollars)

	Jobs	Earnings	Value added	Output
Direct Effect	702	\$26.3	\$38.9	\$217.6
Indirect	261	10.8	19.4	34.5
Effect				
Total Effect	963	\$37.1	\$58.3	\$252.1

In addition to the impacts on employment, earnings, output and state GDP cited above, new facility's ongoing operations would generate a projected increase of approximately \$2.174 million in annual state tax revenues, including:

- \$1.391 million in state personal income taxes paid by workers newly employed by Cargill at the Company's new Rhode Island facility, or by Rhode Island workers whose jobs are indirectly attributable to the new facility;
- \$607,000 in state sales taxes paid on those workers' taxable household spending; and
- \$176,000 in state business taxes.

Benefits

Cargill, Inc. provides a comprehensive package of employee benefits that include medical, dental and vision coverage; wellness programs; 401(k) and employee stock ownership plans; health care and wellness programs; life, long-term disability and accidental death and dismemberment insurance; tuition reimbursement and adoption assistance.

Hiring

Cargill, Inc. has its own internal recruiting operation, which it supplements as needed with assistance from temporary staffing organizations, placement agencies and professional recruiters.

Impact

The state fiscal impact of the requested tax credits and sales tax exemption is estimated to be approximately \$13.199 million in foregone state tax revenue. Direct and indirect economic and fiscal benefits of the proposed project include the estimated increase in annual state GDP of \$58.3 million in the third year of operation, the estimated associated job creation, and a gross increase of \$26.496 million in personal income, sales and business tax revenues during the initial construction period and the twelve-year commitment period. These benefits are detailed in the foregoing analysis.

In addition to the economic and tax revenue impacts cited above, the Company's new facility would benefit Rhode Island in other ways, including:

- Providing new opportunities in manufacturing for Rhode Island residents
- Increasing local payments in lieu of taxes and tangible personal property tax revenues
- Company donations to local food banks and other community organizations

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the Rebuild Rhode Island program mitigate risks to the state. In particular, the completion risk (i.e. the risk that the project is not completed) is mitigated by the fact that Rebuild Rhode Island tax credits will be issued only upon completion of construction work. The risk of project cost overruns is mitigated by the fact that the credits would capped at the amount set forth above. In addition, if project costs come in lower than anticipated, the value of the credits would be reduced accordingly.

Various features of the Qualified Jobs Incentive program similarly mitigate risk to the state. The value of Qualified Jobs Incentive tax credits would be determined on the basis of the number of people actually employed and the wages actually paid by the Company; and the Company would be obligated to maintain the projected level of employment in Rhode Island through the twelve-year commitment period.

Re: Rebuild Rhode Island Tax Credit Applications

Date: June 28, 2018

The staff of the Rhode Island Commerce Corporation (the "Corporation") has informed the Office of Management and Budget ("OMB") that it intends to recommend to the Corporation's Board of Directors (the "Board") one new project for the receipt of tax credits under the Rebuild Rhode Island Tax Credit in an amount not to exceed \$2,750,000.00. That recommendation is as follows:

1. That the application submitted by Rubius Therapeutics, Inc. be approved for tax credits in a maximum amount of \$2,750,000.00.

As of May 21, 2018, the Corporation had approved tax credits and/or loans under the program in the amount of \$99,304,827.92. The approval of an additional \$2,750,000.00 in tax credits would bring the cumulative total of approved credits and/or loans to \$102,054,827.92. Currently \$49.7 million dollars have been appropriated into the Rebuild Rhode Island Tax Credit Fund. Additional funding is expected in future legislative sessions and section 42-64.20-5(f) of the Rhode Island General Laws authorized aggregate tax credits and/or loans under the Rebuild Rhode Island Tax Credit program in an amount not to exceed \$150 million. Accordingly, the existing and anticipated revenue capacity for the Rebuild Rhode Island Tax Credit program exceeds the total amount of credits and/or loans that are proposed for approval. As a result, OMB confirms that the additional amount of credits and/or loans proposed above, i.e. \$2,750,000.00, does not exceed the existing and anticipated revenue capacity of the state for the Rebuild Rhode Island Tax Credit program. In addition, OMB confirms that, with the approval of the proposed credits and/or loans, the aggregate credits and/or loans approved by the Corporation under the Rebuild Rhode Island program will not exceed the maximum aggregate credits and/or loans allowed under the program.

Furthermore, based on information provided by the Corporation staff concerning the anticipated completion schedule of the projects that are the subject of these applications and the likely distribution of credits and/or loan proceeds over the five-year payment period, OMB anticipates the budget impact to the state of the credits and/or loans, if approved, in the year of application and in subsequent years will be as set forth in the attached Exhibit A.

The memorandum constitutes OMB's written confirmation pursuant to RIGL § 42-64.20-6(a)(4) and pursuant to Rule 12(a)(3) of the Rules and Regulations for the Rebuild Rhode Island Tax Credit Program. Pursuant to RIGL § 42-64.20-5(m), any disbursements to support the redemption of tax credits for 90% of their value are subject to appropriations, and applicants should be notified accordingly.

Rhode Island Commerce Corporation Rebuild Rhode Island and Qualified Jobs Incentive Tax Credits – Economic Impact Analysis

Rubius Therapeutics Application

Introduction

The Rhode Island Commerce Corporation (the "Corporation") may issue Rebuild Rhode Island and Qualified Jobs Incentive tax credits to Rubius Therapeutics, Inc. ("the Company"), a Cambridge, Massachusetts-based biopharmaceutical manufacturer. The credits would be issued in connection with the Company's decision to acquire, renovate, expand and activate an existing facility in Smithfield, Rhode Island. The newly-renovated facility would be used to manufacture a new class of medicines called Red Cell Therapeutics.

The Smithfield facility would be acquired and renovated at an estimated total cost of approximately \$155.0 million. By its second year of operation, the facility is expected to employ 154 full-time workers.

The Company is expected to request:

- \$2,750,000 in Rebuild Rhode Island tax credits;
- An exemption from sales and use taxes due on construction materials and furnishings, with an estimated value of \$2,700,000;
- \$3,715,000 in Qualified Jobs Incentive tax credits; and
- A Tax Stabilization Incentive valued at \$180.000.

This analysis was prepared by Appleseed, a consulting firm with more than twenty years of experience in economic impact analysis.

Jobs Analysis

Construction

As shown in Table 1, the Company estimates the total cost of renovating and equipping its newly-acquired facility at approximately \$155.0 million, with the full build-out and fit-out occurring in stages over a five-year period.

Table 1: Rubius Therapeutics estimated total project cost (\$ millions)

Component	Estimated cost
Property acquisition	\$16.0
Construction	82.7
Machinery and equipment	2.5
Furniture and fixtures	53.2
Computers/IT	0.6
Total	\$155.0

After excluding certain costs that do not have a direct impact on Rhode Island's economy (such as site acquisition, and machinery and equipment that we assume will be procured out-of-state), Appleseed estimates that the Company will spend approximately \$82.7 million in Rhode Island on construction of the plant. Appleseed estimates that direct expenditures of approximately \$82.7 million will directly and indirectly generate:

- 587 person-years¹ of work in Rhode Island, with \$39.7 million in earnings (in 2020 dollars);
- Approximately \$98.5 million in statewide economic output²; and
- A one-time increase of \$56.9 million in Rhode Island's GDP.

These impacts are summarized below in Table 2. The project's *direct impact* is the impact of the company's direct spending on construction (both hard and soft costs). Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

Table 2: Direct, indirect and induced impact of construction and related spending (employment in person-years; income, value-added and output in millions of 2019 dollars)

-	•		-	
	Employment	Earnings	Value added	Output
Direct Effect	498	\$33.7	\$47.4	\$82.7
Indirect	89	6.0	9.5	15.8
Effect	07	0.0	7.5	15.0
Total Effect	587	\$39.7	56.9	\$98.5

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$82.7 million would generate a projected one-time increase of approximately \$2.326 million in taxes paid to the State during construction, including:

¹ A person-year is equivalent to the time worked by one person who is employed full-time for a year. It could for example represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years.

² Output is a measure of the total sales by Rhode Island companies (including the "sale" of labor by Rhode Island households) generated by the project.

- \$1.490 million in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project;
- \$648,000 in state sales taxes paid on those workers' taxable household spending; and
- \$188,000 in state business taxes.

Most of the activity reflected in Table 2 is assumed occur over a three-year period – from 2018 through 2020. The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island.

Table 3: Anticipated wages during construction

-	0
Occupation	RI median hourly wage ³
Architect	\$42.50
Construction manager	\$50.86
Carpenter	\$22.42
Electrician	\$25.26
Plumber	\$24.84
Painter	\$18.69
Laborer	\$18.68

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

Annual operations

As noted above, the Company would employ 92 full-time workers at its new Rhode Island facility in its first year, rising to 154 in its second year (assumed here to be 2022). Table 3 summarizes the categories in which these jobs will be created, and the median salary for each category. The median across all categories would be \$54,941.

Table 3: Projected employment, second year of operation

Job category	New positions (Year 3)	Median salary
Management	8	\$191,718
Lab technicians & manufacturing	125	54,941
Engineers	21	67,161
Total	154	\$54,941

³ Rhode Island Department of Labor and Training, Occupational Employment Statistics, 2016

Based on data provided by the Company, and using the IMPLAN input-output modeling system, Appleseed estimates that in year 2, ongoing operations associated with the full-time jobs the Company would be committed to creating and maintaining will directly and indirectly support:

- 214 jobs in Rhode Island;
- \$15.7 million in annual earnings (in 2021 dollars);
- \$54.8 million in statewide economic output; and
- An increase of \$28.1 million in Rhode Island's annual GDP.

These impacts are summarized below in Table 4.

Table 4: Direct, indirect and total annual impact of ongoing operations (employment in FTE; income, value-added and output in millions of 2021 dollars)

	Jobs	Earnings	Value added	Output
Direct Effect	154	\$10.2	\$19.7	\$41.2
Indirect	60	5.5	8.4	13.6
Effect				
Total Effect	214	\$15.7	\$28.1	\$54.8

In addition to the impacts on employment, earnings, output and state GDP cited above, the new facility's ongoing operations would generate a projected increase of approximately \$919,000 in annual state tax revenues, including:

- \$588,000 in state personal income taxes paid by workers newly employed at the Company's new Rhode Island facility, or by Rhode Island workers whose jobs are indirectly attributable to the new facility;
- \$257,000 in state sales taxes paid on those workers' taxable household spending; and
- \$74,000 in state business taxes.

Benefits

The Company's standard benefit program includes medical, dental and life insurance, short- and long-term disability insurance, a 401k program with an employer match, a bonus plan and 20 days of personal time off.

Hiring

The Company posts job openings on, and accepts applications through, its website. The Company also recruits through services such as Indeed.com; and may also use search firms for more specialized scientific and management positions.

Impact

The state fiscal impact of the requested tax credits, sales tax exemption and tax stabilization incentive is estimated to be approximately \$9.345 million in foregone state tax revenue. Direct and indirect economic and fiscal benefits of the proposed project include the estimated increase in annual state GDP of \$28.1 million in the second year of operation, the estimated associated job creation, and a gross increase of \$12.984 million in personal income, sales and business tax revenues during the initial construction period and the twelve-year commitment period. Over fifteen years, the cumulative gross increase in these three taxes would total \$15.741 million. These benefits are detailed in the foregoing analysis.

In addition to the economic and tax revenue impacts cited above, the Company's new facility would benefit Rhode Island in other ways, including:

- Highlighting Rhode Island's attractiveness as a location for life sciences companies and for advanced manufacturing facilities
- Providing new, high-quality opportunities in manufacturing for Rhode Island residents
- Developing the state's life sciences and biomanufacturing workforce
- Increasing local real property and tangible personal property tax revenues

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the Rebuild Rhode Island program mitigate risks to the state. In particular, the completion risk (i.e. the risk that the project is not completed) is mitigated by the fact that Rebuild Rhode Island tax credits will be issued only upon completion of construction work. The risk of project cost overruns is mitigated by the fact that the credits would capped at the amount set forth above. In addition, if project costs come in lower than anticipated, the value of the credits would be reduced accordingly.

Various features of the Qualified Jobs Incentive program similarly mitigate risk to the state. The value of Qualified Jobs Incentive tax credits would be determined on the basis of the number of people actually employed and the wages actually paid by the Company; and the Company would be obligated to maintain the projected level of employment in Rhode Island through the twelve-year commitment period.
