## 3. <u>TO CONSIDER FARM FRESH RHODE ISLAND FOR AN AWARD UNDER</u> <u>THE REBUILD RHODE ISLAND TAX CREDIT PROGRAM.</u>

Jeffrey Miller, EVP Investments, indicted that Farm Fresh Rhode Island ("Farm Fresh") acquired a 3.2 acre site in Providence for the purpose of developing a food hub. He noted that the project cost is estimated at \$15.5 million. Mr. Miller described the details of the project and

explained that Farm Fresh will occupy about half of the building and the other half will be occupied by food related enterprises. He discussed the significant government and private support committed to the project and the potential for New Market Tax Credits. Mr. Miller indicated that the recommendation is for a Rebuild Rhode Island Tax Credit of \$2,222,222, which represents about 13% of their total project cost. He explained how the award from the Corporation would aid in the commitment of the funding. Mr. Miller further explained that the award is conditioned upon funding commitments totaling \$4.8 million, which are expected to come from the New Market Tax Credits (anticipated to be \$3.8 million) and \$1 million from a Rhode Island Housing grant.

Mr. Wadensten commented that it is his understanding that Farm Fresh still has more fund raising to do and the Corporation does not come to the table until that is done? Mr. Miller reiterated that the award is conditioned upon Farm Fresh receiving the further funding in the amount of \$4.8 million.

Upon motion duly made by Mr. Hebert and seconded by Ms. Sams, the following vote was adopted:

**<u>VOTED</u>**: To approve Farm Fresh Rhode Island for an award under the Rebuild Rhode Island Tax Credit program pursuant to the Resolution presented to the Board.

## 4. <u>TO CONSIDER THE NATIONAL SAILING HALL OF FAME FOR AN</u> <u>AWARD UNDER FIRST WAVE CLOSING FUND ACT.</u>

Mr. Miller indicated that the Sailing Hall of Fame (the "Hall of Fame") currently resides in Annapolis, Maryland and that they are considering a move into the Armory Building located on Thames Street in Newport. He explained that the Sailing Hall of Fame would occupy approximately 12,000 square feet at the Armory Building. Mr. Miller noted that the project cost is estimated at about \$4.5 million and the staff is recommending a \$200,000 First Wave Closing Fund grant.

Gary Jobson, President of the Hall of Fame, indicated that they hope to close on the purchase of the condominium at which the Hall of Fame will be located within the next few weeks. He explained that the Hall of Fame has \$2.5 million in the bank and an additional pledge of \$1 million, which they expect to receive over the next three years. Mr. Jobson indicated that the acquisition of the condo from the City of Newport will cost \$1.7 million and that it will cost \$1.25 to \$1.5 million to rehab the space and about another \$1 million for exhibits and displays. Mr.

Jobson explained that the current plan is to start work inside the building in October 2019 and to open the doors in June 2020.

There was some discussion amongst Mr. Jobson and Board members regarding the current home of the Hall of Fame and existing synergies with Newport.

Upon motion duly made by Ms. Sams and seconded by Mr. Wadensten, the following vote was adopted:

**<u>VOTED</u>**: To approve the National Sailing Hall of Fame for an award under First Wave Closing Fund pursuant to the Resolution presented to the Board.

### 5. TO CONSIDER FOR APPROVAL INNOVATION VOUCHERS.

Christine Smith, Managing Director, Innovation, explained that before the Board were three early stage companies in the pharma and medical device area, and noted that representatives from all of the companies are present at the meeting.

Ms. Smith first discussed Alcinous Pharmaceuticals, which is involved with the computational design of drugs. Next, Ms. Smith discussed Circadian Positioning Systems, which has designed circadian software intended to help or improve an individual's sleep and performance. Finally, she presented Gliaview, which concentrates on a number of neurological disorders and are currently developing a prototype cranial prosthesis.

Mr. Wadensten asked if Alcinous obtained intellectual property protections in the molecules that they own. A representative from Alcinous responded that they did get patents. Mr. Wadensten further inquired if the University of Rhode Island receives a share of the royalties? The Alcinous representative indicated that the company has the rights to the molecules and the University has the rights to the synthetic methods and routes developed.

Upon motion duly made by Mr. Hebert and seconded by Dr. Carriuolo, the following vote was adopted:

**<u>VOTED</u>**: To approve the Innovation Vouchers pursuant to the Resolution submitted to the Board.

## 6. TO RECEIVE A PRESENTATION ON OPPORTUNITY ZONES.

Secretary Pryor and Mr. Saglio gave a presentation on opportunity zones. Secretary Pryor explained the process of how the zones are identified, nominated and approved. He noted that all twenty-five of the zones nominated by the Governor were approved.

Mr. Saglio discussed in detail how the program works and the two basic tax advantages. He explained there is a deferral on capital gains tax on any gain if you reinvest those funds into an opportunity zone fund and an exclusion of tax on gains arising after the investment into an opportunity zone fund. Mr. Saglio described the step up in basis associated with holding the new investment whereby the basis is increased by 10% if the investment in opportunity zone fund is held by the taxpayer for at least five years and by an additional 5% if held for at least seven years. He also explained the permanent exclusion from taxable income of capital gains from the sale or exchange of an investment in an opportunity zone fund if the investment is held for at least ten years.

There was a dialogue between Mr. Wadensten and Mr. Saglio regarding the asset types for investment and mechanisms regarding investment and sale.

Secretary Pryor next discussed the efforts being undertaken to attract capital. He indicated that a website has been created, rhodeislandopportunity.com, which lists the 25 census tracts, provides resources available to help foster projects beyond the opportunity zone benefit itself, and more. Secretary Pryor explained that the website is able to feature projects and ventures, should they wish to be posted. Secretary Pryor also added that there was a statewide conference held in February with over 200 participants, among numerous stakeholders. Secretary Pryor also discussed some of the regulatory issues that are ongoing at the federal level.

A copy of the PowerPoint presentation is attached hereto as **Exhibit F**.

## 7. <u>TO CONSIDER APPOINTMENTS TO THE AIR SERVICE DEVELOPMENT</u> <u>COUNCIL.</u>

Secretary Pryor indicated that the Air Services Development Council provides support to efforts to recruit and sustain new routes at TF Green. He noted that the request is for additional funding of up to \$50,000.

Upon motion duly made by Mr. Buonanno and seconded by Mr. McNally the following vote was adopted:

**<u>VOTED</u>**: To approve \$50,000 in funding relative to enhancements to the Rhode Island Commerce Corporation's asset management system.

Re: Rebuild Rhode Island Tax Credit Applications

Date: March 26, 2019

The staff of the Rhode Island Commerce Corporation (the "Corporation") has informed the Office of Management and Budget ("OMB") that it intends to recommend to the Corporation's Board of Directors (the "Board") one project for the receipt of tax credits under the Rebuild Rhode Island Tax Credit in an additional amount not to exceed \$2,222,222.00. That recommendation is as follows:

1. That the application submitted by Farm Fresh Rhode Island be approved for tax credits in a maximum amount of \$2,222,222.00.

As of January 28, 2019, the Corporation had approved tax credits and/or loans under the program in the amount of \$111,404,827.92. The approval of an additional \$2,222,222.00 in tax credits would bring the cumulative total of approved credits and/or loans \$113,627,049.92. Currently \$49.7 million dollars have been appropriated into the Rebuild Rhode Island Tax Credit Fund. Additional funding is expected in future legislative sessions and section 42-64.20-5(f) of the Rhode Island General Laws authorized aggregate tax credits and/or loans under the Rebuild Rhode Island Tax Credit program in an amount not to exceed \$150 million. Accordingly, the existing and anticipated revenue capacity for the Rebuild Rhode Island Tax Credit program exceeds the total amount of credits and/or loans that are proposed for approval. As a result, OMB confirms that the additional amount of credits and/or loans proposed above, i.e. \$2,222,222.00, does not exceed the existing and anticipated revenue capacity of the state for the Rebuild Rhode Island Tax Credit program. In addition, OMB confirms that, with the approval of the proposed credits and/or loans, the aggregate credits and/or loans approved by the Corporation under the Rebuild Rhode Island program will not exceed the maximum aggregate credits and/or loans allowed under the program.

Furthermore, based on information provided by the Corporation staff concerning the anticipated completion schedule of the projects that are the subject of these applications and the likely distribution of credits and/or loan proceeds over the five-year payment period, OMB anticipates the budget impact to the state of the credits and/or loans, if approved, in the year of application and in subsequent years will be as set forth in the attached Exhibit A.

The memorandum constitutes OMB's written confirmation pursuant to RIGL § 42-64.20-6(a)(4) and pursuant to 870-RICR-30-00-3.12(A)(3) (Rules and Regulations for the Rebuild Rhode Island Tax Credit Program). Pursuant to RIGL § 42-64.20-5(m), any disbursements to support the redemption of tax credits for 90% of their value are subject to appropriations, and applicants should be notified accordingly.

## Rhode Island Commerce Corporation Rebuild Rhode Island Tax Credits – Economic Impact Analysis Farm Fresh Rhode Island Application

## Introduction

The Rhode Island Commerce Corporation (the "Corporation") may provide Rebuild Rhode Island tax credits to Farm Fresh Rhode Island (the "Sponsor"), a non-profit organization currently based in Pawtucket. The credits would be provided in connection with the Sponsor's planned development of a new, 60,000-plus square-foot food hub on a currently-vacant 3.2-acre site in the Valley neighborhood in Providence. The new facility would provide space for:

- Market Mobile, the Sponsor's wholesaling and distribution business, which currently links more than 80 producers with more than 200 wholesale customers (retailers, restaurants, institutions)
- Harvest Kitchen, the Sponsor's food processing operation, which creates value-added products from locally-sourced produce and provides job training for adjudicated youth
- A year-round, indoor retail farmers' market
- Space for approximately eight or nine "co-locators," small but growing food and foodrelated businesses that can benefit from proximity to Farm Fresh Rhode Island's operations and to each other.

The total cost of the project is estimated to be \$15.5 million. The Sponsor is requesting Rebuild Rhode Island tax credits totaling \$2.2 million gross (\$2.0 million net).

This analysis was prepared by Appleseed, a consulting firm with more than twenty years of experience in economic impact analysis.

## Jobs Analysis

## Construction

As shown in Table 1, the Sponsor's estimate of total project cost is approximately \$15.5 million

Component	Estimated cost
Property acquisition	\$0.8
Construction (hard costs)	10.6
Soft costs	4.1
Total	\$15.5

After excluding certain expenditures that do not have a direct, current impact on Rhode Island's economy (such property acquisition, interest paid during construction and operating reserves), spending on development of the proposed project is estimated to total approximately \$13.8 million.

Appleseed estimates that direct expenditures of \$13.8 million will directly and indirectly generate:

- 103 person-years<sup>1</sup> of work in Rhode Island, with \$6.6 million in earnings (in 2020 dollars);
- Approximately \$17.8 million in statewide economic output<sup>2</sup>; and
- A one-time increase of \$9.4 million in Rhode Island's GDP.

These impacts are summarized below in Table 2. The project's *direct impact* is the impact of the Sponsor's direct spending on construction, including both hard and soft costs. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

# Table 2: Direct, indirect and induced impact of construction and related spending (employment in person-years; income, value-added and output in millions of 2019 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	78	\$5.1	\$7.0	\$13.8
Indirect Effect	25	1.5	2.4	\$4.0
Total Effect	103	\$6.6	\$9.4	\$17.8

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$13.8 million would generate a projected one-time increase of approximately \$611,000 in taxes paid to the State during construction, including:

- \$222,000 in state sales and use taxes on materials used in construction
- \$249,000 in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project
- \$109,000 in state sales taxes paid on those workers' taxable household spending
- \$31,000 in state business taxes

The activity reflected in Table 2 will occur primarily in 2019 and 2020.

The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island, as of 2017.

<sup>&</sup>lt;sup>1</sup> A person-year is equivalent to the time worked by one person who is employed full-time for a year. It could for example represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years.

<sup>&</sup>lt;sup>2</sup> Output is a measure of the total sales by Rhode Island companies (including the "sale" of labor by Rhode Island households) generated by the project.

Table 5. Anticipated W	ages during construction

Construction manager	\$47.10
Carpenter	\$22.82
Electrician	\$27.42
Plumber	\$27.71
Painter	\$18.85
Laborer	\$19.39

#### Table 3: Anticipated wages during construction

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

## Annual operations

Farm Fresh Rhode Island and its tenant firms are expected to begin moving into the new facility in the fall of 2020, with stabilized operations being reached in 2022. With the move, the Sponsor and its tenants are expected to employ 70 full-time workers in Year One, and a total of 100 full-time workers by Year 5 (2025).

Using IMPLAN, and based on information provided by the Sponsor, Appleseed estimates (as shown in Table 4) that in 2025, ongoing operations would directly and indirectly support:

- 163 jobs in Rhode Island, with approximately \$9.8 million in annual earnings (in 2025 dollars);
- \$44.3 million in annual statewide economic output; and
- An increase of \$16.6 million in Rhode Island's annual GDP.

Table 4: Direct, indirect and total incremental impact of food hub and tenant operations, 2025 (earnings, value-added and output in millions of 2025 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	102 <sup>4</sup>	\$5.7	\$10.0	\$33.2
Indirect Effect	61	\$4.1	\$6.6	11.1
Total Effect	163	\$9.8	\$16.6	\$44.3

In addition to the impacts on employment, earnings, output and state GDP cited in Table 4, ongoing operations would generate a projected gross increase of approximately \$800,000 in taxes paid to the state in 2025, including:

<sup>&</sup>lt;sup>3</sup> Rhode Island Department of Labor and Training, Occupational Employment Statistics, 2017

<sup>&</sup>lt;sup>4</sup> Includes 2 jobs supported by Farm Fresh spending on facility operations and maintenance

- \$222,000 in state sales taxes on taxable goods and services sold by businesses operating at the food hub<sup>5</sup>
- \$370,000 in state personal income taxes paid by Rhode Island workers employed by Farm Fresh or by its tenants, or whose jobs are indirectly attributable to the operations of those businesses
- \$161,000 in state sales taxes paid on those workers' taxable household spending
- \$47,000 in state business taxes

Workers employed by the Sponsor and its tenants would be drawn primarily from communities throughout the Providence-Warwick RI-MA NECTA.

## Impact

The state fiscal impact of the requested tax credits is approximately \$2.2 million in foregone state tax revenue. Direct and indirect economic and fiscal benefits of the proposed project include an estimated increase in annual state GDP (in 2025) of approximately \$16.6 million; the associated job creation; and a gross increase of approximately \$9.0 million in personal income, sales and business tax revenues directly and indirectly generated by the project during the construction phase, and by ongoing operations during the twelve years from 2021 through 2032.

In addition to the economic and tax revenue impacts cited above, the proposed project would benefit Rhode Island in several other ways:

- By redeveloping and activating a vacant property in the Valley neighborhood of Providence
- By creating jobs in a low-income neighborhood
- By effectively connecting Rhode Island producers and consumers
- By improving access to healthy food, both in local community and statewide

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the Rebuild Rhode Island program mitigate other risks to the state. In particular, the completion risk (i.e., the risk that the project is not completed) is mitigated by the fact that the requested tax credits will be awarded only upon completion of the development. The risk of project cost overruns is mitigated by the fact that state's participation would be capped at the amount set forth above.

<sup>&</sup>lt;sup>5</sup> Assumes that 10 percent of all sales by these businesses are taxable

## **Rhode Island Commerce Corporation**

## First Wave Funding – Economic Impact Analysis

## National Sailing Hall of Fame Application

## Introduction

The Rhode Island Commerce Corporation (the "Corporation") may provide First Wave funding to the National Sailing Hall of Fame (the "Sponsor"). The funds would be provided in connection with the Sponsor's proposal to relocate the Hall of Fame from Annapolis to Newport, and to invest in a new home for the Hall at the Historic Newport Armory. The Sponsor estimates the total cost of the project to be \$4.5 million. The Sponsor is requesting \$200,000 in First Wave funding.

This analysis was prepared by Appleseed, a consulting firm with more than twenty years of experience in economic impact analysis.

## **Jobs Analysis**

## Construction

As shown in Table 1, the Sponsor's estimate of total project cost is approximately \$4.535 million

Component	Estimated cost
Acquisition of condominium space in Newport Armory	\$1.685
Renovations	1.500
Exhibits	1.000
Operating & maintenance reserves	0.350
Total	\$4.535

Table 1: Estimated total project cost (\$ millions)

After excluding certain expenditures that do not have a direct, current impact on Rhode Island's economy (condominium purchase, operating reserves), spending on development of the proposed project is estimated to total approximately \$2.5 million. Appleseed estimates that direct expenditures of \$2.5 million will directly and indirectly generate:

- 18 person-years<sup>6</sup> of work in Rhode Island, with \$1.086 million in earnings (in 2020 dollars);
- Approximately \$3.274 million in statewide economic output<sup>7</sup>; and
- A one-time increase of \$1.653 million in Rhode Island's GDP.

<sup>&</sup>lt;sup>6</sup> A person-year is equivalent to the time worked by one person who is employed full-time for a year. It could for example represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years.

<sup>&</sup>lt;sup>7</sup> Output is a measure of the total sales by Rhode Island companies (including the "sale" of labor by Rhode Island households) generated by the project.

These impacts are summarized below in Table 2. The project's *direct impact* is the impact of the Sponsor's direct spending on construction, including both hard and soft costs. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

# Table 2: Direct, indirect and induced impact of construction and related spending (employment in person-years; income, value-added and output in millions of 2019 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	13	\$0.824	\$1.217	\$2.561
Indirect Effect	5	\$0.262	\$0.436	\$0.713
Total Effect	18	\$1.086	\$1.653	\$3.274

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$2.5 million would generate a projected one-time increase of approximately \$89,000 in taxes paid to the State during construction, including:

- \$25,000 in state sales and use taxes on materials used in construction
- \$41,000 in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project;
- \$18,000 in state sales taxes paid on those workers' taxable household spending; and
- \$5,000 in state business taxes.

The activity reflected in Table 2 will occur primarily in 2020 and 2021.

The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island, as of 2017.

Occupation	RI median hourly wage <sup>8</sup>
Architect	\$40.36
Construction manager	\$47.10
Carpenter	\$22.82
Electrician	\$27.42
Plumber	\$27.71
Painter	\$18.85
Laborer	\$19.39

### Table 3: Anticipated wages during construction

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Newport area.

<sup>&</sup>lt;sup>8</sup> Rhode Island Department of Labor and Training, Occupational Employment Statistics, 2017

## Annual operations

The National Sailing Hall of Fame and Museum is expected to begin operating in the summer of 2021. Using IMPLAN, and based on information provided by the Sponsor, Appleseed estimates (as shown in Table 4) that in 2021, ongoing operations would directly and indirectly support:

- 8 full-time-equivalent jobs in Rhode Island, with approximately \$378,000 in annual earnings (in 2021 dollars);
- \$579,000 in annual statewide economic output; and
- An increase of \$439,000 in Rhode Island's annual GDP.

# Table 4: Direct, indirect and total annual impact of operations, (employment in FTE; earnings, value-added and output in millions of 2019 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	7 <sup>9</sup>	\$0.337	\$0.367	\$0.458
Indirect Effect	1	\$0.041	\$0.072	\$0.121
Total Effect	8	\$0.378	\$0.439	\$0.579

In addition to the impacts on employment, earnings, output and state GDP cited in Table 4, the Museum's ongoing operations would generate a projected gross increase in annual state tax revenues of approximately \$20,000, including:

- \$14,000 in state personal income taxes paid by Rhode Island workers employed by the museum, or whose jobs are indirectly attributable to its operations; and
- \$6,000 in state sales taxes paid on those workers' taxable household spending.

Workers employed by the Hall of Fame would be drawn primarily from communities throughout the Newport area.

## Impact

The state fiscal impact of the requested First Wave grant is approximately \$200,000 in direct outlays. Direct and indirect economic and fiscal benefits of the proposed project include an estimated increase in annual state GDP of approximately \$439,000; the associated job creation; and a gross increase of approximately \$329,000 in personal income, sales and business tax revenues directly and indirectly generated by the project during the construction phase, and by ongoing operations during the first twelve years of operation.

In addition to the economic and tax revenue impacts cited above, the proposed project would benefit Rhode Island in several other ways:

• By attracting additional visitors to Newport

<sup>&</sup>lt;sup>9</sup> For purposes of this analysis, direct employment includes full-time, full-year employees, seasonal employees and workers employed by service contractors (such as building service workers).

- By reinforcing the City's status as a leading center for sailing
- By helping to renovate and activate a historic property in Newport

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. The risk of project cost overruns is mitigated by the fact that state's contribution would be capped at the amount set forth above.
