Board Meeting December 16, 2019  
Innovation Vouchers

**American EcoTech LC | Warren, RI | \$49,987** - This Manufacturing Innovation Voucher will focus on the completion of a comparison test of a more efficient air quality monitoring prototype device. The company currently manufactures and sells research grade equipment and this new product would allow it to meet demand by a wider market of users.

**DBV Technology, LLC | North Kingstown, RI | \$42,505** - This project will use funding to access the Acoustic Test Tank at the URI Bay Campus for product testing. The new product line will enhance the effectiveness of the current system and improve its ability to be used in combination with Remotely Operated Underwater Vehicles.
