## Program Descriptions

---

### **Rebuild Rhode Island Tax Credit**

The Rebuild Rhode Island Tax Credit program provides gap financing for real estate projects with redeemable tax credits in amounts up to 20% – and, under specific circumstances, 30% – of project costs. The Board of the Rhode Island Commerce Corporation adopted Principles to further program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation staff will undertake the review and granting of awards. Risk analysis considering the following categories: Execution, Achievability, Ability to Return Capital, and Ability to Repay Loans. Rules and Regulations promulgated by the Corporation detail application guidelines and agreement procedures to be followed by Corporation staff to further ensure program integrity and transparency.

### **Tax Increment Financing**

Tax increment financing provides capital for eligible project by rebating a portion of the new state tax revenue generated by the project. An eligible project must demonstrate need through a “financing gap.” The tax revenue rebate may not exceed 30% of total project costs or 75% of incremental revenue generated, except for infrastructure projects, in which case the rebate goes up to 100% of project costs. The Board of the Rhode Island Commerce Corporation adopted Principles to further grant program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation will undertake the review and granting of awards. Rules and Regulations promulgated by the Corporation detail application guidelines and agreement procedures to be followed by the Corporation to further ensure program integrity and transparency.

### **Tax Stabilization Incentive Program**

The Board of the Rhode Island Commerce Corporation adopted Principles to further program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation staff will undertake the review and granting of awards. Rules and Regulations promulgated by the Corporation detail application guidelines and agreement procedures to be followed by the Corporation to further ensure program integrity and transparency.

**Rhode Island Commerce Corporation**  
**Qualified Jobs Incentive Tax Credits – Economic Impact Analysis**  
*smartShift Technologies Application*

**Introduction**

The Rhode Island Commerce Corporation (the “Corporation”) may issue Qualified Jobs Incentive tax credits to smartShift Technologies LLC (“the Company”) a firm that uses a patented software automation platform to reduce sharply the time and effort needed to update or modify clients’ existing software and systems, and to migrate systems from in-house infrastructure to the cloud. Headquartered in Boston, the Company also maintains offices in Mannheim, Germany and Bangalore, India to serve its European and Asia-Pacific clients. The credits would be issued in connection with the Company’s decision to open a new office in Providence. The Company plans to move 8 current employees to leased space in Providence, and add 5 new employees, in 2020. It would hire 10 additional employees in 2021, and 20 in 2022, for a total of 43 employees in Providence by the end of 2022. The Company is expected to request Qualified Jobs Incentive tax credits with an estimated value of \$1,693,500 over ten years. This analysis was prepared by Appleseed, a consulting firm with twenty-five years of experience in economic impact analysis.

**Jobs Analysis**

*Annual operations*

As noted above, the Company plans to have 13 qualifying employees in its first year at its new location in Providence, 23 in its second year and 43 in its third year. Table 1 summarizes the categories in which these jobs will be created, and median earnings for each category.

**Table 1: Projected employment, 2022**

Job category	New positions (as of year-end 2022)	Median salary
Executive officers	2	\$225,000
Vice president, operations	1	185,000
Finance controller	1	150,000
Client partners	15	136,581
Project managers	15	126,075
SAP automation engineer	1	125,000
Systems architects	7	126,075
Service delivery manager	1	120,000
<b>Total</b>	<b>43</b>	<b>126,075</b>

Based on data provided by the Company, and using the IMPLAN input-output modeling system (a modeling tool commonly used in economic impact analyses), Appleseed estimates that when the new facility is fully staffed, ongoing operations associated with the 37 new jobs the Company would be committed to maintaining in Rhode Island for twelve years will directly and indirectly support:

- 67 jobs in Rhode Island;
- \$7.193 million in annual earnings (in 2021 dollars);
- \$13.917 in statewide economic output; and
- An increase of \$8.904 million in Rhode Island’s annual GDP.

These impacts are summarized below in Table 2. The *direct impact* of the Company’s operations reflects the Company’s direct employment, its direct spending on wages and salaries, the value its operations add to Rhode Island’s GDP, and the total value of the goods and services it produces. Its *indirect impact* is the effect of the Company’s spending on purchases of goods and services from other in-state businesses on employment, earnings, value-added and output in Rhode Island.

**Table 2: Direct, indirect and total annual impact of ongoing operations (income, value-added and output in millions of 2021 dollars)**

	Jobs	Earnings	Value added	Output
<b>Direct</b>	<b>43</b>	<b>\$5.813</b>	<b>\$6.642</b>	<b>\$10.347</b>
<b>Indirect</b>	<b>24</b>	<b>1.380</b>	<b>2.262</b>	<b>3.570</b>
<b>Total</b>	<b>67</b>	<b>\$7.193</b>	<b>\$8.904</b>	<b>\$13.917</b>

In addition to the impacts on employment, earnings, output and state GDP cited above, the Company’s new operations in Rhode Island would generate a projected increase of approximately \$422,000 in annual state tax revenues, including:

- \$270,000 in state personal income taxes paid by workers newly employed by the Company in its new facility in Rhode Island, or by Rhode Island workers whose jobs are indirectly attributable to the Company’s expanded Rhode Island operations;

- \$118,000 in state sales taxes paid on those workers' taxable household spending; and
- \$34,000 in state business taxes.

### **Hiring**

The Company's hiring practices include active recruiting by Company staff, referrals from Company staff, and in some circumstances the use of outside recruiters. The Company will also seek assistance from the Rhode Island Commerce Corporation in identifying sources in Rhode Island. for recruitment of qualified candidates.

### **Benefits**

Employee benefits offered by the Company include health insurance; dental and vision care; disability and life insurance; a 401k retirement a plan with an employer match; and flexible spending accounts.

### **Impact**

The state fiscal impact of the requested tax credits is estimated to be approximately \$1,693,500 in forgone state revenue. Direct and indirect economic and fiscal benefits of the proposed project include the estimated increase in annual state GDP of \$8.904 million in 2022, the estimated associated job creation, and a gross increase of approximately \$4.593 million in personal income, sales and business tax revenues during the twelve-year commitment period beginning in 2020. These benefits are detailed in the foregoing analysis.

In addition to the economic and tax revenue impacts cited above, the Company's move to a new location in Providence would benefit Rhode Island in other ways, including:

- Highlighting Rhode Island's attractiveness as a location for high-value technology companies
- Reinforcing the state's attractiveness as a location for international businesses
- Highlighting the ease of rail travel between Providence and Boston (cited by the Company as a factor in its choice of a downcity Providence location)
- Adding to the city's personal property tax base

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the Qualified Jobs Incentive program mitigate risk to the state; and the value of Qualified Jobs Incentive tax credits would be determined on the basis of the number of people actually employed and the wages actually paid by the Company.

**Rhode Island Commerce Corporation**  
**Qualified Jobs Incentive Tax Credits – Economic Impact Analysis**  
**RESH, Inc. Application**

**Introduction**

The Rhode Island Commerce Corporation (the “Corporation”) may issue Qualified Jobs Incentive tax credits to RESH, Inc. (“the Company”), a firm based in Franklin, Massachusetts that fabricates sheet metal products for a wide range of customers. The credits would be issued in connection with the Company’s decision to move its operations to Rhode Island. The Company is considering several possible sites in northern Rhode Island, where it would construct a new building (65,000 to 70,000 square feet) at a cost of approximately \$9.685 million.

The Company would move 35 employees from its present location to Rhode Island in 2020, and hire 6 additional employees by January 2022, for a total of 41 new-to-Rhode Island jobs. The Company is requesting Qualified Jobs Incentive tax credits with an estimated value of \$735,000 over ten years; and would commit to keeping these jobs in Rhode Island for at least fifteen years. The Company is also seeking to secure tax-exempt financing for the construction of its new facility.

This analysis was prepared by Appleseed, a consulting firm with twenty-five years of experience in economic impact analysis.

**Jobs Analysis**

*Construction*

As shown in Table 1, the Company plans to construct a new building at its new Rhode Island location, at a cost of approximately \$9.685 million.

**Table 1: RESH Inc. estimated total project cost (\$ millions)**

<b>Component</b>	<b>Estimated cost</b>
<b>Site acquisition</b>	<b>\$1.200</b>
<b>Building construction</b>	<b>8.125</b>
<b>Moving machinery from current location</b>	<b>0.300</b>
<b>Electrical connections</b>	<b>0.060</b>
<b>Total</b>	<b>\$9.685</b>

After excluding the cost of site acquisition (which does not have a direct impact on Rhode Island’s economy), Appleseed estimates that the Company will spend approximately \$8.485 million on construction of the plant. Using the IMPLAN input-output modeling system (a modeling tool commonly used in economic impact analyses), Appleseed estimates that direct expenditures of approximately \$8.485 million will directly and indirectly generate:

- 57 person-years<sup>1</sup> of work in Rhode Island, with \$3.784 million in earnings (in 2020 dollars);
- Approximately \$9.856 million in statewide economic output<sup>2</sup>; and
- A one-time increase of \$5.687 million in Rhode Island’s GDP.

These impacts are summarized below in Table 2. The project’s *direct impact* is the impact of the company’s direct spending on design and construction. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

**Table 2: Direct, indirect and induced impact of construction and related spending (employment in person-years; income, value-added and output in millions of 2020 dollars)**

	<b>Employment</b>	<b>Earnings</b>	<b>Value added</b>	<b>Output</b>
<b>Direct Effect</b>	<b>50</b>	<b>\$3.272</b>	<b>\$4.867</b>	<b>\$8.485</b>
<b>Indirect Effect</b>	<b>7</b>	<b>0.512</b>	<b>0.820</b>	<b>1.371</b>
<b>Total Effect</b>	<b>57</b>	<b>\$3.784</b>	<b>\$5.687</b>	<b>\$9.856</b>

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$8.485 million would generate a projected one-time increase of approximately \$375,000 in taxes paid to the State during construction, including:

- \$153,000 in state sales and use taxes paid on materials used in construction
- \$142,000 in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project;
- \$62,000 in state sales taxes paid on those workers’ taxable household spending; and
- \$18,000 in state business taxes.

<sup>1</sup> A person-year is equivalent to the time worked by one person who is employed full-time for a year. It could for example represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years.

<sup>2</sup> Output is a measure of the total sales by Rhode Island companies (including the “sale” of labor by Rhode Island households) generated by the project.

Most of the activity reflected in Table 2 is assumed occur in 2020. The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island.

**Table 3: Anticipated wages during construction**

Occupation	RI median hourly wage <sup>3</sup>
Architect	\$37.59
Construction manager	\$54.74
Carpenter	\$22.68
Electrician	\$28.40
Plumber	\$24.62
Painter	\$19.92
Laborer	\$21.25

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

#### **Annual operations**

As noted above, the Company plans to have 35 qualifying employees in its first year at its new Rhode Island location, and 41 in its second year. Table 1 summarizes the categories in which these jobs will be created, and (as of 2021) median earnings for each category.

**Table 1: Projected employment, 2021**

Job category	New positions (as of 2021)	Median salary
Engineers and machine operators	12	\$52,624
Welders and quality inspectors	20	\$47,112
Management and administration	9	\$89,360
<b>Total</b>	<b>41</b>	<b>\$52,624</b>

Based on data provided by the Company, Appleseed estimates that when the new facility is fully staffed, ongoing operations associated with the 41 new jobs the Company would commit to maintaining in Rhode Island for fifteen years will directly and indirectly support:

- 56 jobs in Rhode Island;
- \$4.210 million in annual earnings (in 2021 dollars);
- \$13.687 million in statewide economic output; and
- An increase of \$4.744 million in Rhode Island's annual GDP.

These impacts are summarized below in Table 2. The *direct impact* of the Company's operations reflects the Company's direct employment, its direct spending on wages and salaries, the value its operations add to Rhode Island's GDP, and the total value of the goods and services it produces. Its *indirect impact* is the effect of the Company's spending on purchases of goods and services from other in-state businesses on employment, earnings, value-added and output in Rhode Island.

**Table 2: Direct, indirect and total annual impact of ongoing operations (income, value-added and output in millions of 2021 dollars)**

	Jobs	Earnings	Value added	Output
<b>Direct</b>	<b>41</b>	<b>\$3.080</b>	<b>\$3.117</b>	<b>\$10.904</b>
<b>Indirect</b>	<b>15</b>	<b>1.130</b>	<b>1.627</b>	<b>2.783</b>
<b>Total</b>	<b>56</b>	<b>\$4.210</b>	<b>\$4.744</b>	<b>\$13.687</b>

In addition to the impacts on employment, earnings, output and state GDP cited above, the Company's new operations in Rhode Island would generate a projected increase of approximately \$247,000 in annual state tax revenues, including:

<sup>3</sup> Rhode Island Department of Labor and Training, Occupational Employment Statistics, 2018

- \$158,000 in state personal income taxes paid by workers newly employed by the Company in its new facility in **Rhode Island**, or by Rhode Island workers whose jobs are indirectly attributable to the Company's expanded Rhode Island operations;
- \$69,000 in state sales taxes paid on those workers' taxable household spending; and
- \$20,000 in state business taxes.

### **Hiring**

Whenever possible, the Company fills new or vacant positions by promoting qualified employees from within.

Company employees are encouraged to refer qualified candidates for available positions. The Company pays bonuses of \$1,000.00 to employees (excluding hiring managers and human resources staff) who refer applicants who are subsequently hired and remain for at least 90 days.

### **Benefits**

Employee benefits offered by the Company include health, dental and vision insurance; group life and disability insurance; a 401k retirement a plan with a 3 percent employer contribution, plus a discretionary "profit-sharing" contribution; and paid time off (vacation and holidays). For this package of benefits, employees contribute either \$20.00 (for single employees) or \$40.00 (for family coverage) per week.

### **Impact**

The state fiscal impact of the requested tax credits is estimated to be approximately \$735,000 in forgone state revenue. Direct and indirect economic and fiscal benefits of the proposed project include the estimated increase in annual state GDP of \$4.744 million in 2022, the estimated associated job creation, and a gross increase of approximately \$4.044 million in personal income, sales and business tax revenues during construction and during the fifteen-year commitment period beginning in 2020. These benefits are detailed in the foregoing analysis.

In addition to the economic and tax revenue impacts cited above, expansion of the Company's operations at its new location would benefit Rhode Island in other ways, including:

- Highlighting Rhode Island's continued attractiveness as a location for customized manufacturing enterprises (including those in older industries such as metalworking)
- Adding to the municipal personal property tax base

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the Qualified Jobs Incentive program mitigate risk to the state; and the value of Qualified Jobs Incentive tax credits would be determined on the basis of the number of people actually employed and the wages actually paid by the Company.

**Rhode Island Commerce Corporation**  
**Qualified Jobs Incentive Tax Credits – Economic Impact Analysis**  
**Response Technologies LLC Application**

**Introduction**

The Rhode Island Commerce Corporation (the “Corporation”) may issue Qualified Jobs Incentive tax credits to Response Technologies LLC (“the Company”), a West Warwick, Rhode Island-based firm that combines strengths in materials science and additive manufacturing, provides innovative technological solutions and related products for both military and industrial uses. The credits would be issued in connection with the Company’s decision to expand its operations in Rhode Island – an expansion that would involve moving from West Warwick to Coventry, Rhode Island. Response Properties (the Company’s real estate affiliate) would purchase an existing building in Coventry and would lease approximately 60,000 square feet to Response Technologies. The number of workers employed by the Company would rise from 8 at its present location to 27 in its first year at its new facility in Coventry, and to 45 in its second year, for a total of 37 new jobs. The Company is expected to request Qualified Jobs Incentive tax credits with an estimated value of \$675,000 over ten years.

Should the project proceed, the Company may seek assistance from the Rhode Island Renewable Energy Fund for development of solar and/or hydropower generating capacity; and should environmental clean-up required at the site, it may also seek assistance through the state’s brownfields program. As it has in the past, Response Technologies will also continue to apply for RI-STAC matching grants for federal SBIR funds awarded to the Company.

This analysis was prepared by Appleseed, a consulting firm with twenty-five years of experience in economic impact analysis.

**Jobs Analysis**

*Annual operations*

As noted above, the Company plans to have 19 qualifying employees in its first year at its new location in Coventry, and 37 in its second year. Table 1 summarizes the categories in which these jobs will be created, and (as of 2021) median earnings for each category.

**Table 1: Projected employment, 2021**

Job category	New positions (as of 2021)	Median salary
Engineers	9	\$80,000
Production (machinists and technicians)	18	\$51,500
Management and administration	10	\$58,325
<b>Total</b>	<b>37</b>	<b>\$56,650</b>

Based on data provided by the Company, and using the IMPLAN input-output modeling system (a modeling tool commonly used in economic impact analyses), Appleseed estimates that when the new facility is fully staffed, ongoing operations associated with the 37 new jobs the Company would be committed to maintaining in Rhode Island for twelve years will directly and indirectly support:

- 52 jobs in Rhode Island;
- \$3.56 million in annual earnings (in 2021 dollars);
- \$14.14 million in statewide economic output; and
- An increase of \$5.63 million in Rhode Island’s annual GDP.

These impacts are summarized below in Table 2. The *direct impact* of the Company’s operations reflects the Company’s direct employment, its direct spending on wages and salaries, the value its operations add to Rhode Island’s GDP, and the total value of the goods and services it produces. Its *indirect impact* is the effect of the Company’s spending on purchases of goods and services from other in-state businesses on employment, earnings, value-added and output in Rhode Island.

**Table 2: Direct, indirect and total annual impact of ongoing operations (income, value-added and output in millions of 2021 dollars)**

	Jobs	Earnings	Value added	Output
<b>Direct</b>	<b>37</b>	<b>\$2.46</b>	<b>\$3.99</b>	<b>\$11.22</b>
<b>Indirect</b>	<b>15</b>	<b>1.10</b>	<b>1.64</b>	<b>2.92</b>
<b>Total</b>	<b>52</b>	<b>\$3.56</b>	<b>\$5.63</b>	<b>\$14.14</b>

In addition to the impacts on employment, earnings, output and state GDP cited above, the Company’s new operations in Rhode Island would generate a projected increase of approximately \$210,000 in annual state tax revenues, including:

- \$133,000 in state personal income taxes paid by workers newly employed by the Company in its new facility in Rhode Island, or by Rhode Island workers whose jobs are indirectly attributable to the Company’s expanded Rhode Island

- operations;
- \$60,000 in state sales taxes paid on those workers' taxable household spending; and
- \$17,000 in state business taxes.

**Hiring**

When possible, the Company seeks to fill vacancies by promoting from within. The Company also encourages referrals from its employees, and may provide bonuses to employees who refer applicants who are subsequently hired.

The Company also recruits applicants through its website, through ZipRecruiter and through local job fairs; and when necessary, through professional recruiters.

**Benefits**

Employee benefits offered by the Company include health insurance; a 401k retirement a plan with a 1-to-1 employer match up to 6 percent; and paid time off (including sick days, vacation and holidays).

**Impact**

The state fiscal impact of the requested tax credits is estimated to be approximately \$675,000 in forgone state revenue. Direct and indirect economic and fiscal benefits of the proposed project include the estimated increase in annual state GDP of \$5.63 million in 2021, the estimated associated job creation, and a gross increase of approximately \$2.41 million in personal income, sales and business tax revenues during the twelve-year commitment period beginning in 2020. These benefits are detailed in the foregoing analysis.

In addition to the economic and tax revenue impacts cited above, expansion of the Company's operations at its new location in Coventry would benefit Rhode Island in other ways, including:

- Potential for additional near-term hiring beyond the level for which the Company is seeking tax credits (the Company has stated that the number of new employees added through 2021 at its new location could be as high as 52, rather than 37)
- Potential for continued growth in sales to the Department of Defense
- Highlighting Rhode Island's attractiveness as a location for customized, advanced manufacturing enterprises
- Adding to the town's personal property tax base

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the Qualified Jobs Incentive program mitigate risk to the state; and the value of Qualified Jobs Incentive tax credits would be determined on the basis of the number of people actually employed and the wages actually paid by the Company.

**Rhode Island Commerce Corporation**  
**Rebuild Rhode Island – Economic Impact Analysis**  
***Peyser Real Estate Group Application***

**Introduction**

The Rhode Island Commerce Corporation (the “Corporation”) may provide Rebuild Rhode Island tax credits to Peyser Real Estate Group (the “Sponsor”). The credits would be provided in connection with the Sponsor’s proposed investment in a new mixed-use development located on Dexter Street in the Conant Thread District, a transit-oriented development district in Pawtucket/Central Falls centered on a new Commuter Rail Station and Bus Hub. The new station will provide improved access to Providence and Boston, and also provide direct access to the RIPTA bus network.

The Sponsor’s project, known as Dexter Commons, would include:

- 150 rental apartments
- Approximately 20,000 square feet of retail space
- 172 parking spaces (including both structured and surface parking)

The Sponsor estimates the total cost of the project to be \$43.6 million. The Sponsor is requesting \$2.0 million gross (\$1.8 million net) in Rebuild Rhode Island tax credits, an exemption from state sales and use taxes on the purchase of materials used in construction, valued at \$947,232, and tax increment financing from the City of Pawtucket totaling \$10,047,232.

This analysis was prepared by Appleseed, a consulting firm with more than twenty years of experience in economic impact analysis.

**Jobs Analysis**

***Construction***

As shown in Table 1, the Sponsor’s estimate of total project cost is approximately \$43.6 million. After excluding certain expenditures that do not have a direct, current impact on Rhode Island’s economy (such property acquisition and interest paid during construction), spending on development of the proposed project is estimated to total approximately \$39.3 million.

**Table 1: Estimated total project cost (\$ millions)**

Component	Estimated cost
Acquisition	\$1.9
Construction – hard costs	\$33.1
Construction – soft costs	\$4.3
<b>Total</b>	<b>\$39.3</b>

Appleseed estimates that direct expenditures of \$39.3 million will directly and indirectly generate:

- 292 person-years<sup>5</sup> of work in Rhode Island, with \$17.41 million in earnings (in 2021 dollars);
- Approximately \$53.68 million in statewide economic output<sup>6</sup>; and
- A one-time increase of \$26.81 million in Rhode Island’s GDP.

These impacts are summarized below in Table 2. The project’s *direct impact* is the impact of the company’s direct spending on design and construction. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

**Table 2: Direct, indirect and induced impact of construction and related spending (employment in person-years; income, value-added and output in millions of 2021 dollars)**

	Employment	Earnings	Value added	Output
Direct Effect	185	\$12.03	\$17.95	\$39.27
Indirect Effect	107	\$5.38	\$8.86	\$14.41
<b>Total Effect</b>	<b>292</b>	<b>\$17.41</b>	<b>\$26.81</b>	<b>\$53.68</b>

The activity reflected in Table 2 will occur from mid-2020 through mid-2022.

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$39.27 million would generate a projected one-time increase of approximately \$1.02 million in taxes paid to the State during construction, including:

- \$653,000 in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project
- \$285,000 in state sales taxes paid by these workers on taxable household spending
- \$82,000 in state business taxes

<sup>5</sup> A person-year is equivalent to the time worked by one person who is employed full-time for a year. It could represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years. In this case, 292 person-years would equate to an average of 146 full-time-equivalent jobs in construction and related industries each year for two years.

<sup>6</sup> Output is a measure of the total sales by Rhode Island companies (including the “sale” of labor by Rhode Island households) generated by the project.

The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island, as of 2017

**Table 3: Anticipated wages during construction**

<b>Occupation</b>	<b>RI median hourly wage<sup>7</sup></b>
Architect	\$37.59
Construction manager	\$54.74
Carpenter	\$22.68
Electrician	\$28.90
Plumber	\$27.71
Painter	\$19.92
Laborer	\$21.25

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

#### *Annual operations*

Residential units and retail spaces at Dexter Commons are assumed here to be fully leased by mid-2023. Using IMPLAN, along with information on the property's operating expenditures provided by the Sponsor – and assuming that the proposed retail space would be occupied by a mix of retail, restaurants and service tenants – Appleseed estimates (Table 4) that in 2023, ongoing operations at Dexter Commons would directly and indirectly support:

- 100 jobs in Rhode Island, with approximately \$3.15 million in annual earnings (in 2023 dollars);
- \$7.88 million in annual statewide economic output; and
- An increase of \$4.86 million in Rhode Island's annual GDP.

**Table 4: Direct, indirect and total incremental impact of business and facility operations, 2023 (employment in jobs; earnings, value-added and output in millions of 2023 dollars)**

	<b>Employment</b>	<b>Earnings</b>	<b>Value added</b>	<b>Output</b>
<b>Direct Effect</b>	<b>91<sup>8</sup></b>	<b>\$2.54</b>	<b>\$3.74</b>	<b>\$6.03</b>
<b>Indirect Effect</b>	<b>9</b>	<b>\$0.61</b>	<b>\$1.12</b>	<b>\$1.85</b>
<b>Total Effect</b>	<b>100</b>	<b>\$3.15</b>	<b>\$4.86</b>	<b>\$7.88</b>

**In addition to the impacts on employment, earnings, output and state GDP cited in Table 4, ongoing operations at Dexter Commons would generate a projected gross increase of approximately \$510,000 in taxes paid to the state in 2023, including:**

- \$118,000 in state personal income taxes paid by Rhode Island workers employed at Dexter Commons, or whose jobs are indirectly attributable to operations at the site
- \$52,000,000 in state sales taxes paid on those workers' taxable household spending;
- \$15,000 in state business taxes
- \$325,000 in state sales taxes on retail and restaurant purchases at the site

Workers employed by businesses' operating on the project site would be drawn primarily from communities throughout the Providence-Warwick RI-MA NECTA.

#### **Impact**

The state fiscal impact of the requested tax credits and sales tax exemption will be approximately \$2.75 million in forgone state tax revenue. Direct and indirect economic and fiscal benefits of the proposed project include an estimated increase in annual state GDP (in 2023 dollars) of approximately \$4.86 million; the associated job creation; and a cumulative gross increase of approximately \$7.14 million in annual state personal income, sales and business tax revenues directly and indirectly generated by the project during the construction phase, and by ongoing operations during the twelve years after completion of the project.

In addition to the economic and tax revenue impacts cited above, the proposed project would benefit Rhode Island in several other ways:

<sup>7</sup> Median wages cited in Table 3 are from Rhode Island Department of Labor and Training, Occupational Employment Statistics, May 2018, except for plumbers, which are from May 2017

<sup>8</sup> In this case, direct employment includes Dexter Commons staff, contract service workers and employees of commercial tenants

- By attracting new residents to Pawtucket, and by highlighting the city's growing attractiveness to workers commuting both to Boston and to Providence.
- By helping to increase demand for the planned new commuter rail service
- By helping to attract additional private investment to the Conant Thread District
- By expanding the labor pool from which businesses located in Pawtucket/Central Falls can draw

Beyond the fiscal impact noted above, the state's financial exposure will be limited. Incremental state revenues generated by construction and ongoing operations of the proposed development should be sufficient to offset the cost of the state tax incentives cited above.

**Rhode Island Commerce Corporation**  
**Qualified Jobs Incentive Tax Credits – Economic Impact Analysis**  
***Change Healthcare Operations LLC Application***

**Introduction**

The Rhode Island Commerce Corporation (the “Corporation”) may issue Qualified Jobs Incentive tax credits to Change Healthcare Operations LLC (“the Company”), a Nashville, Tennessee-based health care technology firm that provides information management, analytics, software, technology solutions and other support services to health care providers, payers and other health system participants. The credits would be issued in connection with the Company’s decision to expand its operations at its current location in Pawtucket, where it provides services such as appointment scheduling, insurance verification, after-hours call support, on-call physician services and patient follow-up to hospitals and physician groups nationwide.

The Company’s expansion would result in the employment of 27 additional workers by 2022. The Company is expected to request Qualified Jobs Incentive tax credits with an estimated value of approximately \$480,000.

This analysis was prepared by Appleseed, a consulting firm with twenty-five years of experience in economic impact analysis.

**Jobs Analysis**

*Annual operations*

As noted above, the Company plans to have 27 qualifying new employees in place in Pawtucket in its first year. Table 1 summarizes the categories in which these jobs will be created, and (as of 2021) median earnings for each category.

**Table 1: Projected employment, 2022**

Job category	New positions (as of 1/1/2022)	Median salary
Client services management	27	\$59,635

Based on data provided by the Company, and using the IMPLAN input-output modeling system (a modeling tool commonly used in economic impact analyses), Appleseed estimates that as of 2022, ongoing operations associated with the 27 new jobs the Company would be committed to maintaining in Rhode Island for twelve years will directly and indirectly support:

- 35 jobs in Rhode Island
- \$2.30 million in annual earnings (in 2022 dollars)
- \$4.47 million in statewide economic output
- An increase of \$2.86 million in Rhode Island’s annual GDP

These impacts are summarized below in Table 2. The *direct impact* of the Company’s operations reflects the Company’s direct employment, its direct spending on wages and salaries, the value its operations add to Rhode Island’s GDP, and the total value of the goods and services it produces. Its *indirect impact* is the effect of the Company’s spending on purchases of goods and services from other in-state businesses on employment, earnings, value-added and output in Rhode Island.

**Table 2: Direct, indirect and total annual impact of ongoing operations (income, value-added and output in millions of 2022 dollars)**

	Jobs	Earnings	Value added	Output
Direct	27	\$1.87	\$2.13	\$3.32
Indirect	8	0.43	0.73	1.15
Total	35	\$2.30	\$2.86	\$4.47

In addition to the impacts on employment, earnings, output and state GDP cited above, the Company’s new operations in Rhode Island would generate a projected increase of approximately \$135,000 in annual state tax revenues, including:

- \$86,000 in state personal income taxes paid by the qualified workers newly employed by the Company in operations in Rhode Island, or by Rhode Island workers whose jobs are indirectly attributable to the Company’s expanded Rhode Island operations
- \$38,000 in state sales taxes paid on those workers’ taxable household spending
- \$11,000 in state business taxes

**Hiring**

The Company’s hiring process includes the following steps:

- Applicant’s creation of an online profile and submission of an application through the Company website
- Preliminary review of applications
- For selected applicants, an initial phone screening, followed by interviews with the hiring manager and others
- Extension of specific job offers to elected candidates

- The onboarding process, which may include background checks, drug screening, and other job-specific steps

### **Benefits**

Employee benefits offered by the Company to its full-time employees include:

- Medical, dental, vision and prescription drug plans
- Health savings accounts and flexible spending accounts
- An employee well-being program, providing cash incentives for healthy behaviors
- A 401(k) plan with an employer match
- Life insurance
- Education assistance
- Adoption assistance
- Paid time off (holidays, vacation, paid parental leave and two days of paid volunteer time per year)

### **Impact**

The state fiscal impact of the requested tax credits is estimated to be approximately \$480,000 in forgone state revenue. Direct and indirect economic and fiscal benefits of the proposed project include the estimated increase in annual state GDP of \$2.86 million in 2022, the estimated associated job creation, and a gross increase of approximately \$1.62 million in personal income, sales and business tax revenues during the twelve-year commitment period beginning in 2022. These benefits are detailed in the foregoing analysis.

In addition to the economic and tax revenue impacts cited above, expansion of the Company's operations in Pawtucket would benefit Rhode Island in other ways, including:

- Potential for additional near-term hiring beyond the level for which the Company is seeking tax credits. (The Company has stated that the number of qualifying new employees hired at its Pawtucket location could be as high as 42, rather than 27.)
- Creation of more than 200 net new call center jobs in Pawtucket. (These jobs would not be eligible for Qualified Jobs Incentive tax credits since their salaries fall below the state's median income.)
- Highlighting Rhode Island's attractiveness as a location for company's in the fast-growing field of health care technology

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the Qualified Jobs Incentive program mitigate risk to the state; and the value of Qualified Jobs Incentive tax credits would be determined on the basis of the number of people actually employed and the wages actually paid by the Company.
