VOTE OF THE BOARD OF DIRECTORS
OF THE RHODE ISLAND COMMERCE CORPORATION

JUNE 22, 2020

APPROVED

VOTED: To approve the meeting minutes for the May 18, 2020 meeting as presented to the Board.
The Board of Directors of the Rhode Island Commerce Corporation (the “Corporation”) met on May 18, 2020, in Public Session, beginning at 4:30 p.m. via telephonic conference, pursuant to Executive Order 20-25 and the public notice of meeting, a copy of which is attached hereto as Exhibit A, as required by applicable Rhode Island law.

The following Directors were present and participated throughout the meeting as indicated: Bernard Buonanno, III, Dr. Brenda Dann-Messier, Tim Hebert, Jason Kelly, Michael McNally, George Nee, Ronald O’Hanley, Donna Sams, Vanessa Toledo-Vickers, and Karl Wadensten.

Directors absent were: Governor Gina M. Raimondo and Mary Jo Kaplan.

Also present were: Secretary of Commerce Stefan Pryor; Jesse Saglio, President & COO; and Christopher Fragomeni, Esq.

1. **CALL TO ORDER AND OPENING REMARKS.**

   Mr. O’Hanley called the meeting to order at 4:34 p.m., indicating that a quorum was present.

2. **TO CONSIDER THE APPROVAL OF MEETING MINUTES.**

   Upon motion duly made by Dr. Dann-Messier and seconded by Mr. McNally, the following vote was adopted:

   **VOTED:** To approve the meeting minutes for the April 27, 2020 meeting as presented to the Board.

   Voting in favor of the foregoing were: Bernard Buonanno, III, Dr. Brenda Dann-Messier, Tim Hebert, Jason Kelly, Michael McNally, George Nee, Ronald O’Hanley, Donna Sams, Vanessa Toledo-Vickers, and Karl Wadensten.

   Voting against the foregoing were: none.

3. **TO RECEIVE AN UPDATE ON THE REOPENING RI PROCESS.**

   Secretary Pryor explained that the “Reopening RI”—a three phase reopening process for the State—had begun and was advancing through its first phase. He summarized phase one of the process, which included the incremental reopening of certain main street businesses while monitoring public health indicators and the business communities’ readiness and eagerness to reopen. Secretary Pryor reported that in phase one, non-critical businesses were authorized to open, and noted his receipt of reports that those businesses were complying with social distancing
and mask-wearing guidance that was disseminated by the State. Secretary Pryor recounted that during the COVID pandemic, the State, unlike other neighboring states, permitted manufacturing and construction businesses to continue operations, and that the State was the first state in its region to permit outdoor dining and reopen retail stores.

Secretary Pryor noted the intent to permit other companies, such as salons and barber shops, to reopen in phase two. In that regard, he stated, the administration, in coordination with the Rhode Island Department of Health, sought the input of hair professionals on a Facebook Live event, which was attended by over 3,000 industry professionals. He also noted the creation of the Advisors on Business Restoration, an advisory group comprised of representatives from regional chambers of commerce, major industry associations, leagues of cities and towns, labor, and other key fields.

Secretary Pryor stated that a main goal in reopening the economy is providing struggling, small businesses with necessary resources. He stated that the State will distribute 50,000 face masks, along with disinfectant via a voucher at Ocean State Job Lot, to small businesses with fifty or fewer employees.

Additionally, Secretary Pryor described a program, being administered by Social Enterprise Greenhouse, under which a small business with fewer than twenty-five employees can apply for a laptop donated by Microsoft. He noted that Microsoft donated a total of 1,000 laptops, half of which SEG will be distributed to small businesses, and the other half will be allocated to educational institutions. In distributing the laptops, Secretary Pryor stated, SEG will prioritize businesses in low income areas, such as Opportunity Zones, and businesses led by women, veterans, and minorities. Secretary Pryor also noted that the State is looking into and exploring financing programs for small businesses.

Mr. O’Hanley inquired as to the key metrics in evaluating whether the reopening process should advance to its next phase. Secretary Pryor responded that the Governor and Dr. Alexander-Scott, Director of the Rhode Island Department of Health, have set forth the following set of indicators and metrics: (1) number of cases of infections; (2) number of hospitalizations, especially intensive care unit admissions; and (3) a plateau in those numbers without outliers. In response to a question from Mr. O’Hanley, Secretary Pryor stated that Rhode Island is participating in a seven-state dialogue pertaining to reopening in the region, and that those states are sharing information, emerging practices, and information on intra-state travelers.

Mr. Nee commended the Corporation’s staff on focusing and prioritizing on obtaining personal protective equipment. Secretary Pryor commended Steven King, managing director of the Quonset Development Corporation, on his efforts in procuring personal protective equipment and disinfectant.

4. **TO CONSIDER FOR APPROVAL INNOVATION VOUCHERS.**

Ms. Smith indicated that the five Innovation Vouchers before the Board for approval were for the design and manufacturing of COVID-19-related products. Response Technologies, LLC (“RT”), Ms. Smith explained, is an advanced textile manufacturer that services the defense
industry. She further explained that RT was seeking an Innovation Voucher to create additive manufacture capabilities to create masks and a mobile manufacturing process for masks. The other four companies, Ms. Smith stated, all seek Innovation Vouchers to design or create medical devices. She noted that Inventilator, LLC (“Inventilator”) is researching methods to use CPAP and BIPAP machines as an alternative to ventilators, and Sproutel, Inc. (“Sproutel”) is developing and designing a spirometer for use during patient recovery. She further noted that Research Instruments Corporation (“RIC”) is developing a portable x-ray machine for use in remote locations, and Vitae Industries, Inc. (“Vitae”) is creating a compounding pharmaceutical machine.

Ms. Toledo-Vickers and Dr. Dann-Messier noted and commended the quick response of innovation companies to pivot and design, create, or manufacture goods needed as a result of the COVID pandemic. Mr. Wadensten questioned whether the market was sufficient to support the quantity of innovation occurring, and Ms. Smith noted that the companies before the Board have existing relationships with purchasers, and already have identified a market to sell their goods. For instance, a representative of RIC indicated that no other companies are developing the x-ray technology that RIC is creating. A representative of Inventilator described the company’s market research, and noted that the company is not creating additional ventilators, but, instead, developing methods in which early ventilation with existing resources can prevent subsequent intubation, which has harmful health effects.

Upon motion duly made by Mr. Hebert and seconded by Dr. Dann-Messier, the following vote was adopted:

VOTED: To approve Innovation Vouchers pursuant to the resolution submitted to the Board.

Voting in favor of the foregoing were: Bernard Buonanno, III, Dr. Brenda Dann-Messier, Tim Hebert, Jason Kelly, Michael McNally, George Nee, Ronald O’Hanley, Donna Sams, Vanessa Toledo-Vickers, and Karl Wadensten.

Voting against the foregoing were: none.

A copy of the resolution is attached hereto as Exhibit B.

5. TO CONSIDER AN AMENDMENT TO THE NETWORK MATCHING GRANT TO THE UNITED WAY OF RHODE ISLAND, INC.

Ms. Smith indicated that the United Way of Rhode Island, Inc., which previously received a Network Matching Grant from the Corporation, is seeking an increase of that grant in the amount of $18,300 relative to the disbursement of five hundred laptops by Social Enterprise Greenhouse to underserved business communities.

Upon motion duly made by Mr. Nee and seconded by Ms. Toledo-Vickers, the following vote was adopted:
**VOTED:** To approve an amendment to the Network Matching Grant to the United Way of Rhode Island, Inc. pursuant to the resolution submitted to the Board.

Voting in favor of the foregoing were: Bernard Buonanno, III, Dr. Brenda Dann-Messier, Tim Hebert, Jason Kelly, Michael McNally, George Nee, Ronald O’Hanley, Donna Sams, Vanessa Toledo-Vickers, and Karl Wadensten.

Voting against the foregoing were: none.

A copy of the resolution is attached hereto as **Exhibit C**.

There being no further business in Public Session, the meeting was adjourned by unanimous consent at 5:15 p.m. upon motion made by Dr. Dann-Messier and seconded by Mr. Wadensten.

WHEREAS: The Board of the Corporation received a presentation inclusive of a term sheet detailing the Project and proposed incentives together with a recommendation from the staff of the Corporation to approve the issuance of tax credits and a sales and use tax exemption to the Recipient in accordance with the Rebuild RI Tax Credit Act and the Rules.

NOW, THEREFORE, acting by and through its Board, the Corporation hereby resolves as follows:

RESOLVED:
1. To accomplish the purposes of the Act and the Rebuild RI Tax Credit Act, the Corporation approves the issuance of tax credits and a sales and use tax exemption in the aggregate amount of $450,000 to the Recipient.

4. Prior to the execution of an Incentive Agreement with the Recipient, the Corporation shall prepare and publicly release an analysis of the impact that the
issuance of the tax credits will or may have on the State considering the factors set forth in RIGL § 42-64-10(a)(2) (a copy of which is annexed hereto as Exhibit 3).

The Secretary or the Assistant Secretary of the Corporation, and each, acting singly, is hereby authorized to affix a seal of the Corporation on any of the documents authorized herein and to attest to the same.

Construction spending would directly and indirectly generate approximately $192,000 in state tax revenue, including:

- $123,000 in state personal income taxes paid by workers directly employed on the project, or by Rhode Island workers whose jobs are indirectly attributable to the project;
- $54,000 in state sales taxes paid on those workers’ taxable household spending; and
- $15,000 in state business taxes.

Impact of operations

After redevelopment is completed and the building is occupied, ongoing operations at 33 Bassett (including building operations and maintenance and the operations of office tenants) would directly and indirectly account for

- 187 jobs in Rhode Island;
- $14.32 million in earnings (in 2021 dollars);
- $53.82 million in statewide economic output; and
- An increase of $23.29 million in Rhode Island’s annual GDP.

---

1 This analysis includes both the ongoing impact of property management, operations and maintenance, and the ongoing impact of office tenant operations. Creation of new jobs in technology, professional and business services and other office-based sectors is not attributable solely to development of the space needed to accommodate them; but without such development, continued growth in high-value office-based jobs is unlikely to be sustainable the long run.

1. The Corporation staff has reviewed the application submitted and the impact analysis for this project (the impact analysis is provided to the Board as an exhibit to the approving resolution for the project).

2. The project is consistent with the purpose of the Rebuild Rhode Island Tax Credit Act, R.I. Gen. Laws § 42-64.20-1 et seq.

The total credits to be awarded to the applicant shall not be in excess of the amount listed above.
Introduction

The Rhode Island Commerce Corporation (the “Corporation”) may provide Rebuild Rhode Island tax credits to Link Street LLC (the “Sponsor”). The credits would be provided in connection with the Sponsor’s proposed investment in a new mixed-use development located on Parcel 6 in the I-195 Development District in Providence. The Sponsor’s 89,000 gross square-foot project would include:

- 62 rental apartments, including 31 low-income and workforce housing units, and 31 market-rate units
- Approximately 19,500 square feet of retail space, including a 13,100 square-foot grocery store
- Four “mini-office” or studio spaces totaling approximately 2,900
- 162 parking spaces (including both structured and surface parking)

The Sponsor estimates the total cost of the project to be $28.6 million. The Sponsor is requesting $3.25 million gross ($2.925 million net) in Rebuild Rhode Island tax credits, and an exemption from state sales and use taxes on the purchase of materials used in construction, which Appleseed estimates will be valued at $689,000. The value of the Rebuild Rhode Island tax credits granted will be reduced dollar-for-dollar by the value of the sales and use tax exemption.

This analysis was prepared by Appleseed, a consulting firm with more than twenty years of experience in economic impact analysis.

Jobs Analysis

Construction

As shown in Table 1, the Sponsor’s estimate of total project cost is approximately $29.3 million. After excluding certain expenditures that do not have a direct, current impact on Rhode Island’s economy (such property acquisition, leasing reserves and interest paid during construction), spending on development of the proposed project is estimated to total approximately $28.3 million.

Using IMPLAN – a modeling tool commonly used in economic impact studies – Appleseed estimates that direct expenditures of $28.3 million will directly and indirectly generate:

- 207 person-years\(^1\) of work in Rhode Island, with $12.42 million in earnings (in 2021 dollars);

---

\(^1\) A person-year is equivalent to the time worked by one person who is employed full-time for a year. It could represent the work of two people who are each employed full-time for six months; or the work of one person...
- Approximately $38.07 million in statewide economic output; and
- A one-time increase of $19.04 million in Rhode Island’s GDP.

These impacts are summarized below in Table 2. The project’s direct impact is the impact of the company’s direct spending on design and construction. Its indirect impact is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

The activity reflected in Table 2 will occur from the summer of 2020 through the spring of 2022. In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of $28.27 million would generate a projected one-time increase of approximately $728,000 in taxes paid to the State during construction, including:
- $466,000 in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project
- $203,000 in state sales taxes paid by these workers on taxable household spending
- $59,000 in state business taxes

The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island, as of May 2018.

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

Annual operations

who is employed half-time for two years. In this case, 292 person-years would equate to an average of 146 full-time-equivalent jobs in construction and related industries each year for two years.

2 Output is a measure of the total sales by Rhode Island companies (including the “sale” of labor by Rhode Island households) generated by the project.

3 Median wages cited in Table 3 are from Rhode Island Department of Labor and Training, Occupational Employment Statistics, May 2018, except for plumbers, which are from May 2017.
The residential units, retail spaces and “mini-office”/studios to be developed on Parcel 6 are assumed to be fully leased and occupied by the beginning of 2023. Ongoing operating impacts will include:

- Building management, maintenance and operations; and
- The operations of tenant businesses.

Using IMPLAN, along with information on the property’s operating expenditures provided by the Sponsor Appleseed estimates (Table 4) that in 2023, ongoing residential and commercial operations would directly and indirectly support:

- 75 jobs in Rhode Island, with approximately $3.23 million in annual earnings (in 2023 dollars);
- $7.40 million in annual statewide economic output; and
- An increase of $4.45 million in Rhode Island’s annual GDP.

</tbody>
</table>

In addition to the impacts on employment, earnings, output and state GDP cited in Table 4, ongoing operations on Parcel 6 would generate a projected gross increase of approximately $274,000 in taxes paid to the state in 2023, including:

- $113,000 in state personal income taxes paid by Rhode Island workers employed in building and tenant business operations at Parcel 6, or whose jobs are indirectly attributable to operations at the site
- $53,000,000 in state sales taxes paid on those workers’ taxable household spending;
- $14,000 in state business taxes
- $94,000 in state sales taxes on retail and restaurant purchases at the site

Workers employed by businesses’ operating on the project site would be drawn primarily from communities in and near Providence.

**Impact**

The state fiscal impact of the requested tax credits and sales tax exemption will be approximately $3.25 million in forgone state tax revenue. Direct and indirect economic and fiscal benefits of the proposed project include an estimated increase in annual state GDP (in 2023 dollars) of approximately $4.45 million; the associated job creation; and a cumulative gross increase of approximately $2.37 million in state personal income, sales and business tax revenues directly and indirectly generated by the project during the construction phase, and by ongoing operations during the six years after completion of the project.

In addition to the economic and tax revenue impacts cited above, the proposed project would benefit Rhode Island in several other ways:

---

4 In this case, direct employment includes building management staff, contract service workers and employees of commercial tenants
• By increasing the supply of affordable, workforce and market-rate housing in Providence
• By making retail and other services available to future residents of and workers in and near the I-195 Development District
• By providing space for creative small businesses
• By adding to the City’s real property tax base

Beyond the fiscal impact noted above, the state’s financial exposure will be limited. Various features of the Rebuild Rhode Island program mitigate other risks to the state. In particular, the completion risk (i.e., the risk that the project is not completed) is mitigated by the fact that the tax credits will be issued only upon completion of the development. The risk of project cost overruns is mitigated by the fact that the credits capped at the amount set forth above. In addition, if project costs come in lower than anticipated, the value of the credits will be reduced accordingly.
