Submission Instructions

Please submit a complete electronic copy to REF@commerceri.com in the same email as your application to the Small-Scale Program or Commercial-Scale Program.

Uploading documents to Dropbox or a shared folder is highly recommended. Please include the shared link in the body of your email.

Please submit applications and questions to REF@commerceri.com.

- Review the energy storage adder Request for Projects for further details before submitting an application.

- Read and review the REF Rules and Regulations before completing this application. A copy of the proposed Rules may be obtained by mail or email, by calling 401-278-9100, or may be accessed online at: https://rules.sos.ri.gov/regulations/part/870-20-00-1

- All requirements must be met.

- Incomplete applications will not be processed.

- Awards are dependent on funding availability.

- All applicants are advised that any and all records (documents, correspondence, memoranda, etc.), regardless of the form provided, received or maintained by COMMERCE RI and/or the REF, may be a matter of public record and subject to release under the Rhode Island Access to Public Records Act (R.I. Gen. Laws §38-2-1 et seq.). Commerce RI does however have the right to redact any information which is exempt under the statute before releasing the documents. The exemptions that would most pertain to financing or grant applications include but are not limited to reports and statements of strategy or negotiation, trade secrets and commercial and financial information which is privileged or confidential pursuant to R.I. Gen. Laws §38-2-2. As such, we suggest that any portion of the application or materials provided by the applicant that contains such information (including for example, customer lists, processes, etc. or financial information) be clearly labeled with a legend or marking such as "Confidential information -- Not Public Record". This does not guarantee that the information so marked will necessarily be exempt from public release, as Commerce RI will make any final determination about which information is to be made available to the public, but this will be helpful in identifying any records which may be exempt.
# Section A. Technical Specifications

Please describe the following technical specifications of the energy storage component of the project by completing Table 1 (please complete the column that corresponds to the proposed energy storage component of the project). You may also attach manufacturer technical specifications for both the energy storage inverter and the energy storage device.

<table>
<thead>
<tr>
<th>Table 1.</th>
<th>Energy Storage Component Specifications</th>
<th>AC-Coupled Energy Storage Component</th>
<th>DC-Coupled Energy Storage Component</th>
<th>Packaged Energy Storage Component</th>
</tr>
</thead>
<tbody>
<tr>
<td>Energy Storage Component Type</td>
<td>Enter specifications for DC:DC converter</td>
<td>Manufacturer</td>
<td>Model Number</td>
<td>Rated Continuous Power Output (kW)</td>
</tr>
<tr>
<td>Inverter Specifications</td>
<td>See specifications for PV inverter on REF Small-Scale or Commercial-Scale Application</td>
<td>Manufacturer</td>
<td>Model Number</td>
<td>Rate Continuous Power Output (kW)</td>
</tr>
<tr>
<td>Battery Module Specifications</td>
<td>N/A</td>
<td>Manufacturer</td>
<td>Model Number</td>
<td>Quantity</td>
</tr>
</tbody>
</table>

Space for additional notes if needed:
Please calculate the maximum continuous power rating the energy storage component of the project can deliver over three hours using the following formula in Table 2. Please note that generation from the renewable energy component does not count toward the maximum continuous power rating of the energy storage component.

$$\text{Maximum Continuous Power Rating} = \min\left(\frac{\text{total battery capacity in Wh}}{3 \text{ hours}}, \text{maximum continuous power rating of inverter in W}\right)$$

<table>
<thead>
<tr>
<th>Row</th>
<th>Term</th>
<th>Calculation</th>
<th>Value</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Total battery capacity</td>
<td>Enter value from spec sheet</td>
<td></td>
<td>Wh</td>
</tr>
<tr>
<td>2</td>
<td></td>
<td>Divide Row 1 by 3</td>

</tbody>
</table>
Section B. Funding Data

Please calculate the anticipated total amount of the energy storage adder awarded to this project by following the steps in the table below:

\[
\text{total amount} = \min(\text{maximum continuous power rating of energy storage component} \times \$0.50/W, \$40,000)
\]

<table>
<thead>
<tr>
<th>Row</th>
<th>Term</th>
<th>Calculation</th>
<th>Value</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Maximum continuous power rating of energy storage component</td>
<td>Enter value from Table 2 Row 4</td>
<td></td>
<td>W</td>
</tr>
<tr>
<td>2</td>
<td>Uncapped adder total</td>
<td>Multiple Row 1 by $0.50/W</td>
<td>$</td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>Total adder amount</td>
<td>Enter the smaller of the value in Row 2 and $40,000</td>
<td>$</td>
<td></td>
</tr>
</tbody>
</table>

Please list all anticipated funding sources for the energy storage component in Table 4:

<table>
<thead>
<tr>
<th>Funding Component</th>

<tr>
<td>Total</td>
<td></td>
<td>$</td>
</tr>
</tbody>
</table>

**Section C. Eligible Technology Attestation**

By checking the following statement, the applicant certifies that:

- The energy storage component of the project meets all eligibility criteria for National Grid’s Connected Solutions program.

Failure to confirm the above statement will render the application ineligible for the energy storage adder.

<table>

REF Commercial-Scale Application Addendum for Energy Storage Adder

Section D. Connected Solutions Enrollment

To be completed by the applicant:

By checking one (and only one) of the following statements, the applicant certifies that:

☐ The energy storage component of the project is eligible for National Grid’s Connected Solutions program and will be enrolled in National Grid’s Connected Solutions program within one (1) month of project completion. The owner has been provided sufficient information about National Grid’s Connected Solutions program, understands how to participate, and understands the potential magnitude of revenue from active participation.

☐ The energy storage component of the project is eligible for National Grid’s Connected Solutions program, but the owner is not an electric distribution customer of National Grid.

☐ The energy storage component of the project is eligible for National Grid’s Connected Solutions program, but the owner has chosen to opt out of enrollment. The owner has been provided sufficient information about National Grid’s Connected Solutions program, understands how to participate, and understands the potential magnitude of lost revenue from not participating in the program.

Failure to check any of the above statements will render the application ineligible for the energy storage adder. Please note that selection and award amount from the REF energy storage adder is not dependent on which statement is selected. Please note that National Grid reserves the right to limit participation on a first-come, first-served basis based on total program budget.

</tbody>
</table>
To be completed by the owner, if the owner is different than the applicant:

By checking one (and only one) of the following statements, the owner certifies that:

- The energy storage component of the project will be enrolled in National Grid’s Connected Solutions program. The owner has been provided sufficient information about National Grid’s Connected Solutions program, understands how to participate, and understands the potential magnitude of revenue from active participation.

- The owner is not an electric distribution customer of National Grid.

- The owner has chosen to opt out of enrollment in National Grid’s Connected Solutions program. The owner has been provided sufficient information about National Grid’s Connected Solutions program, understands how to participate, and understands the potential magnitude of lost revenue from not participating in the program.

Failure to check any of the above statements will render the application ineligible for the energy storage adder. Please note that selection and award amount from the REF energy storage adder is not dependent on which statement is selected. Please note that National Grid reserves the right to limit participation on a first-come, first-served basis based on total program budget.

<th>Yes or No</th>
</tr>
</thead>
<tbody>
<tr>
<td>The turnkey contract includes all terms and conditions related to the energy storage component</td>
<td></td>
</tr>
<tr>
<td>Total system one-line or three-line electrical drawing, includes both the energy storage component and the renewable energy component</td>
<td></td>
</tr>
<tr>
<td>Proof of funds for the remainder of the energy storage component of the project</td>
<td></td>
</tr>
<tr>
<td>Layout drawing showing proposed placement of the energy storage component on the property or in the building</td>
<td></td>
</tr>
<tr>
<td>Workmanship warranty for the energy storage component</td>
<td></td>
</tr>
<tr>
<td>Manufacturers warranties for all major equipment in the energy storage component</td>
<td></td>
</tr>
<tr>
<td>Section G. Cost Data</td>
<td></td>
</tr>
</tbody>
</table>
The undersigned is an authorized representative of the Applicant listed below with the authority to bind the company for the proposed Renewable Energy Project. The Applicant has read, understands, and agrees to be bound by the terms and conditions provided by the Rhode Island Commerce Corporation (COMMERCE RI).

I certify that:

- All statements made in this Application in its entirety including all attachments, appendices, etc. are true and correct to the best of my knowledge.

- The Applicant is neither a person subject to the Rhode Island Code of Ethics nor a person within the scope of R.I.G.L. § 36-14-5(h)

- The Applicant has not been convicted of bribery or attempting to bribe a public official or employee of the COMMERCE RI or of the State, has not been disqualified from an awarded contract with COMMERCE RI or the State, and has never defaulted on work awarded by the COMMERCE RI or the State.

- The Applicant understands that customers participating in the Renewable Energy Fund Program are not eligible for participation in the Renewable Energy Growth Program.

- The Applicant shall comply with the Rules and Regulations for the Renewable Energy Development Fund Programs.
