Voting in favor of the foregoing were: Dr. Brenda Dann-Messier, Mary Jo Kaplan, Michael McNally, George Nee, Ronald O'Hanley, Donna Sams, Vanessa Toledo-Vickers, and Karl Wadensten.

Voting against the foregoing were: none.

## 3. <u>TO CONSIDER INCENTIVES FOR A PROPOSED PROJECT BY A TO-BE-FORMED AFFILIATE(S) OF FORTUITOUS PARTNERS, L.L.C. PURSUANT TO R.I. GEN. LAWS CHAPTER 45-33.4 AND THE REBUILD RHODE ISLAND TAX <u>CREDIT PROGRAM.</u></u>

Secretary Pryor commended and thanked Governor Raimondo, Governor McKee, Mayor Grebien, and the members of the Fortuitous team for their efforts and leadership in finalizing the

terms of the Tidewater development project located in Pawtucket, the city that hosted the first U.S. Open soccer tournament in 1913. Secretary Pryor noted that negotiations about the project began in 2019, and he outlined the principles that the Corporation maintained through those negotiations. First, Secretary Pryor stated that the public investment will be used for public infrastructure improvements and amenities to create public spaces in the city to support the development. The stadium itself and other commercial elements of the development, he stated, will not be publicly subsidized. Second, Secretary Pryor stated, the project will be cash positive, even though portions of the project, like the commercial office space component, have changed due to the COVID pandemic. Third, Secretary Pryor noted that the total public investment will be approximately sixteen percent of the project cost, which is four percent lower than the cap of public investment for other incentives programs, such as the Rebuild Rhode Island Tax Credit program. Lastly, he described the positive and catalytic effect the development will have on the creation of construction and ongoing jobs, which is supported by the economic impact analysis conducted for the project.

Secretary Pryor compared the effects of the Tidewater development to ancillary developments offered by the Pawsox before they moved to Worcester, MA. He noted that the Pawsox proposed only 50,000 square feet of commercial development, but the Tidewater project, in contrast, will have over 500,000 square feet of mixed use development in phase one alone, with additional development anticipated in phase two of the project. He also explained that the private investment in the Tidewater project far exceeds the proposed private investment by the Pawsox.

Mr. Saglio outlined the specifics of the project, which will revitalize about twenty-five acres of undeveloped land across six parcels on each side of the Seekonk River, include a mixed use development with 435 residential units, and result in hundreds of construction jobs and over 600 ongoing jobs. He also noted that the soccer stadium portion of the development will host a newly-constituted United Soccer League Championship team, the second tier of professional soccer in the United States. He also described the proposed public infrastructure improvements, including streetscape improvements and construction of a river walk and pedestrian bridge. He stated that the staff is requesting that the Board approve \$10 million in net Rebuild Rhode Island tax credits, including a rebate of sales and use taxes on building materials, and use of sufficient state base revenues to enable tax increment financing.

Mayor Grebien thanked the Corporation's leadership and staff, Governor Raimondo, Governor McKee, and Brett Johnson of Fortuitous. He noted the impact of the proposed project and its ability to transform the city, waterfront, and city's amenities.

Mr. McNally stated his approval of the project, indicating that it was a good development for Pawtucket and the State. He also noted that the bond for the project is paid from the new revenues of the development; therefore, those incentives cost the State nothing so long as the project's projections hold. He also explained that the State is not liable for any cost overruns for the project, and stated that his only concern is the developer's consideration of rising water levels, due to the project's proximity to the Seekonk River. Ms. Toledo-Vickers also indicated her approval of the project and noted that it increases housing availability.

In response to a question by Mr. Wadensten, Secretary Pryor stated that if the project does not meet its revenue projections, the bond can be paid with base revenue from the district in which

the project is located. Mr. Saglio described the Corporation's efforts to review the projected revenues and the net incremental increase in those revenues as a result of the project.

In response to a question by Ms. Kaplan, Mayor Grebien stated that Pawtucket held numerous public meetings and outreach relative to public feedback regarding the proposed infrastructure improvements. Brett Johnson, a principal of Fortuitous, thanked the Board, Pawtucket, and the State, and he introduced Dan Kroeber, the engineer for the project, who indicated that the elevation of the project will be increased over the 100-year flood plain.

Dr. Dann-Messier commended Mayor Grebien and congratulated Fortuitous.

Upon motion duly made by Mr. McNally and seconded by Ms. Toledo-Vickers, the following vote was adopted:

**<u>VOTED</u>**: To approve a to-be-formed affiliate(s) of Fortuitous Partners, L.L.C. for incentives pursuant to R.I. Gen. Laws Chapter 45-33.4 and the Rebuild Rhode Island Tax Credit program pursuant to the resolutions submitted to the Board.

Voting in favor of the foregoing were: Dr. Brenda Dann-Messier, Mary Jo Kaplan, Michael McNally, George Nee, Ronald O'Hanley, Donna Sams, Vanessa Toledo-Vickers, and Karl Wadensten.

Voting against the foregoing were: none.

Copies of the resolutions are attached hereto as **Exhibit B**.

There being no further business in Public Session, the meeting was adjourned by unanimous consent at 4:00 p.m. upon motion made by Dr. Dann-Messier and seconded by Mr. Nee.

## MEMORANDUM

To:	Board of Directors, Rhode Island Commerce Corporation	)n
From:	Jonathan Womer Director, Office of Management & Budget	1
Date:	February 4, 2021	
Subject:	Rebuild Rhode Island Tax Credit Applications	

The staff of the Rhode Island Commerce Corporation (the "Corporation") has informed the Office of Management and Budget ("OMB") that it intends to recommend to the Corporation's Board of Directors (the "Board") one project for the receipt of tax credits and sales and use tax exemptions under the Rebuild Rhode Island Tax Credit in an amount not to exceed \$14,000,000.00. That recommendation is as follows:

1. That the application submitted by Tidewater Landing be approved for tax credits in a maximum amount of \$14,000,000.00, which includes \$4,000,000.00 of sales and use tax exemptions.

As of December 21, 2020, the Corporation had approved tax credits and sales and use tax exemptions under the program in the amount of \$191,462,426.69. The approval of an additional \$14,000,000.00 in tax credits and sales and use tax exemptions would bring the cumulative total of approved tax credits, sales and use tax exemptions, and/or loans to \$205,462,426.69. Currently \$82.2 million dollars have been appropriated into the Rebuild Rhode Island Tax Credit Fund. Additional funding is expected in future legislative sessions and section 42-64.20-5(f) authorized aggregate tax credits, sales and use tax exemptions, and/or loans to \$210 million. Pursuant to section 42-64.20-6(a)(4), OMB confirms that the aggregate credits recommended by the Commerce Corporation do not exceed the maximum aggregate credits allowed under this chapter in accordance with § 42-64.20-5(f).

Based on information provided by the Corporation, OMB anticipates the budget impact to the state of the tax credits, sales and use tax exemptions, and/or loans, if approved, in the year of application and in subsequent years will be as set forth in the attached Exhibit A.

### Introduction

In April 2019, Fortuitous Partners ("Fortuitous") submitted a proposal to the Rhode Island Commerce Corporation (the "Corporation") and the City of Pawtucket (the "City") to redevelop property along the riverfront in downtown Pawtucket. The proposal includes a Master Plan to redevelop two sites at Tidewater and Division Street with a mixed-use district<sup>1</sup> anchored by a United Soccer League Championship ("USLC") stadium and indoor event center<sup>2</sup>.

The project would be developed across two phases<sup>3</sup> and include:

### Phase 1:

- A 7,500-seat USLC stadium
- 60,000 square feet of new office space
- 56,750 square feet of retail and restaurant space
- 435 residential units
- One parking garage with a total of 750 spaces, plus 150 spaces below the residential building at Division Street
- Infrastructure and public space improvements (utility and stormwater improvements, roadway and streetscape improvements, off-site infrastructure improvements, Riverwalk)

## Phase 2:

- A 139,500 square-foot indoor events center
- A 120-room hotel
- Infrastructure and public space improvements (pedestrian bridge, Riverwalk, roadway and streetscape improvements)

Fortuitous' proposal to the Corporation and City included a preliminary project budget, financial operating projections and economic and fiscal impacts estimated to be generated by the proposed development. To assist in evaluating the proposal, the Corporation and City engaged Conventions, Sports & Leisure International ("CSL") to analyze the information submitted. As part of the analysis, CSL reviewed the Fortuitous Master Plan, evaluated project costs, estimated utilization and projected financial operations related to the stadium and event center and analyzed the net new benefits estimated to be generated to the public for reasonableness. As a point of comparison to the net new benefits included in Fortuitous' proposal, CSL developed an estimate of the quantifiable benefits of the proposed development based on

<sup>&</sup>lt;sup>1</sup> A feasibility study for the mixed-use businesses has not been completed to date.

<sup>&</sup>lt;sup>2</sup> A feasibility study for the indoor event center has not been completed to date.

<sup>&</sup>lt;sup>3</sup> Proposed development project budget and operating model submitted by Fortuitous, November 2020.

historical operations of comparable USLC teams, industry data, information from Fortuitous and Hunden Strategic Partners ("HSP")<sup>4</sup>, the use of IMPLAN multipliers<sup>5</sup> and CSL's experience in quantifying the economic and fiscal impacts of similar projects.

This analysis summarizes the estimated economic impacts associated with Phase 1 of the development. Fortuitous estimates the total cost of Phase 1 to be \$284.1 million and is requesting public funds toward the project.

### Methodology

#### **Overview of Economic Impacts**

Typically, and for purposes of this analysis, quantifiable effects are characterized in terms of economic impacts and fiscal impacts. Economic impacts are conveyed through measures of direct spending, total output, personal earnings, and employment, while fiscal impacts denote changes in tax revenues.

Each of the measures of economic impact is further described below:

**DIRECT SPENDING** represents spending generated by facility and business operations, including:

- In-Stadium operations and expenditures by patrons and event personnel on admissions, food and beverage, merchandise, etc.;
- Mixed-use business operations;
- Out-of-Stadium spending by patrons, visiting teams and event personnel on hotels, food and beverage, retail, transportation, entertainment and other such expenditures; and,
- Out-of-District spending by district office employees and residents.

**TOTAL OUTPUT** represents the total **direct**, **indirect**, **and induced spending** effects generated by the Pawtucket Riverfront Redevelopment Project. **Indirect** spending consists of the re-spending of the initial direct spending, and **induced** spending effects consists of the positive changes in spending, employment, earnings, and tax collections generated by personal income associated with the operations of the proposed development. *Economic impacts were estimated utilizing multipliers from the IMPLAN system which is an industry leading resource used by various government entities, universities, and private companies.* 

**PERSONAL EARNINGS** represent the wages and salaries earned by employees of businesses impacted by the operations of the Pawtucket Riverfront Redevelopment Project.

**EMPLOYMENT** is expressed in terms of person years of employment and is based on project spending. Person years are defined as one year of employment, or 2,080 annual hours, and may be full- or part-time.

<sup>&</sup>lt;sup>4</sup> CSL relied on the mixed-use businesses operating model (office, restaurant/retail, residential and hotel) submitted by Fortuitous, November 2020.

<sup>&</sup>lt;sup>5</sup> The IMPLAN system is an industry leading resource used by various government entities, universities, and private companies.

The ongoing operations of the Pawtucket Riverfront Redevelopment Project would impact the local economy in a variety of ways. As outlined in the following graphic, **GROSS DIRECT SPENDING** is generated during construction on materials, supplies, and labor; and annual operations on tickets, concessions, sponsorships, business operations, etc., as well as before and after events at local hotels, restaurants, retail, and other such establishments.

To estimate the incremental economic impact benefits generated to the local economy from these **SPENDING** sources, certain **ADJUSTMENTS** must be made to gross direct spending to reflect the fact that all spending is not likely to impact the local economy. The following graphic also summarizes the adjustments made to gross direct spending in order to determine **NET NEW DIRECT SPENDING** impacting the local economy.

have occurred without the presence of the Pawtucket Riverfront Redevelopment Project.

Adjustments must be made to account for the fact that a certain amount of spending associated with the Pawtucket Riverfront Redevelopment Project will be made by local residents and, therefore, likely represents money that could already be spent in the economy in another form. This is called **displacement** and reduces the overall net new impacts. This type of spending is not considered net new to the local economy.

Additionally, not all spending associated with the proposed development would take place in the local economy. A portion of this spending is likely to occur outside the immediate area. This is called **leakage** and similarly reduces the overall impact. The economic impacts presented herein are derived specifically from the net new direct spending estimated to be associated with proposed facility and business operations.

#### **Multiplier Effects**

Economic impacts associated with proposed development operations would be further increased through re-spending of the net new direct spending. The total impact is estimated by applying an economic multiplier to initial direct spending to account for the total economic impact. The total output multiplier is used to estimate the aggregate total spending that takes place beginning with the direct spending and continuing through each successive round of re-spending.

Successive rounds of re-spending are generally discussed in terms of their indirect and induced effects on the surrounding economy, as illustrated below.

	TSPENDING	
	INDIRECT SPENDING	
		INDUCED SPENDING
<ul> <li>Construction Spending</li> <li>Venue Revenues</li> <li>Out-of-Venue Spending</li> <li>Mixed-Use District Spending</li> </ul>	<ul> <li>Food &amp; Merchandise Wholesaler</li> <li>Transport Company</li> <li>Manufacturers</li> <li>Energy/Utilities</li> <li>Numerous Other Industries</li> </ul>	<ul> <li>Business Services</li> <li>Household Spending</li> <li>Governmental Spending</li> <li>All Other Economic Sectors</li> </ul>

**INDIRECT EFFECTS** consist of the re-spending of the initial or direct net new expenditures. These indirect impacts extend further as the dollars constituting the direct expenditures continue to change hands. This process, in principle, could continue indefinitely. However, recipients of these expenditures may spend all or part of it on goods and services outside the market area, put part of these earnings into savings, or use them to pay taxes. This spending halts the process of subsequent expenditure flows and does not generate additional spending or impact within the community after a period of time. This progression is termed **leakage** and reduces the overall economic impact. Indirect impacts occur in a number of areas including the following:

- wholesale industry as purchases of food and merchandise products are made;
- transportation industry as the products are shipped from purchaser to buyer;
- manufacturing industry as products used to service the facility, businesses, vendors, and others are produced;
- utility industry as the power to produce goods and services is consumed; and,
- other such industries.

**INDUCED EFFECTS** consist of the positive changes in spending, employment, earnings and tax collections generated by personal income associated with the operations of the facility and businesses. Specifically, as the economic impact process continues, wages and salaries are earned, increased employment and

population are generated, and spending occurs in virtually all business, household and governmental sectors. This represents the induced spending impacts generated by direct expenditures.

The appropriate multipliers to be used are dependent upon certain regional characteristics and also the nature of the expenditure. An area that is capable of producing a wide range of goods and services within its border will have high multipliers, resulting from an existing positive correlation between the self-sufficiency of an area's economy and the higher probability of re-spending occurring within the region. If a high proportion of the expenditures must be imported from another geographical region, lower multipliers will result.

As an example, say John attends a USLC soccer home game. Before the game, John goes to dinner at a restaurant in downtown Pawtucket. John's spending at the restaurant is **defined as direct spending**. The restaurant John eats at uses that money (and the money spent by those similar to John) to purchase meat, produce and other supplies from a local supplier. The restaurant's spending is **defined as indirect spending**. The local supplier uses the money spent by the restaurant to pay its employees, who then turn around and spend money in the local area on goods and services. The spending by the suppliers' employees is defined as **induced spending**.

Thus, if John had spent \$1.00 directly at the restaurant, that \$1.00 is then multiplied by 1.85 to arrive at \$1.85 of Total Output. In other words, \$1.00 of Direct Spending on food and beverage generates an additional 85 cents of re-spend in the State of Rhode Island.

#### Tax Revenue Impacts

In addition to the economic impacts generated by the Pawtucket Riverfront Redevelopment Project throughout the local market area, the public sector also benefits from increased tax revenues. In preparing estimates of tax revenue impacts, total tax revenues attributable to the direct spending generated by the proposed development were estimated. In addition, estimates of the effect of total output and earnings on the tax collections have been estimated. Tax revenues are based on the current applicable tax rates. Future changes in these rates would have an impact on the resulting tax collections. The sources of tax revenue focused on in this analysis include:

#### STATE OF RHODE ISLAND:

- Sales Tax 7.00%
- Hotel Tax 5.00%
- F&B Tax 7.00%
- Corporate Income Tax 7.00%
- Personal Income Tax 4.00%

#### **Quantitative Economic & Tax Revenue Impact Analysis**

#### Key Assumptions

The following is a list of key data points and assumptions used to estimate the economic and tax revenue impacts associated with the construction and operations of the Pawtucket Riverfront Redevelopment Project.

- Project costs are estimated to total \$284.1 million throughout construction Phase 1 from early 2021 to 2023.
- The new USLC stadium will host 36 events with paid attendance of approximately 184,000 in a stabilized year of operations (2026), including 20 USLC home matches.
- Based on industry data, 50 percent of stadium attendees are assumed to live outside the State of Rhode Island.
- Spending by visitors for events at the stadium consists of in-facility spending on tickets, concessions, merchandise and parking, as well as out-of-facility spending on hotels, restaurants, shopping, transit, entertainment, services and other such expenditures. Per capita out-of-stadium spending by visitors is estimated to total the following (2026 dollars):
  - In-State Day Trippers: \$10.50
  - Out-of-State Day Trippers: \$14.75
  - Out-of-State Overnighters: \$255.50
- The retail and restaurant space will have a 10 percent vacancy rate and generate \$472 in sales per square foot by a stabilized year of operations (2026)<sup>6</sup>.
- The office space will garner a lease rate of \$42.50 by a stabilized year of operations (2026)<sup>6</sup>.
- Out-of-district spending by office employees is estimated based on *International Council of* Shopping Centers Office-Worker Retail Spending in a Digital Age report. The residential buildings will have an eight percent vacancy rate and achieve a lease rate of \$2.40 per square foot by a stabilized year of operations (2026)<sup>6</sup>.
- Ancillary resident spending is based on spending data from the National Association of Home Buildings *The Economic Impact of Home Building in a Typical Local Area* report.
- Net new adjustments were applied to each category of spending to account for displacement (estimated amount of spending that would have been spent in the State regardless of the proposed development) and leakage (estimated amount of spending that takes place outside of the State).

<sup>&</sup>lt;sup>6</sup> CSL relied on the mixed-use businesses operating model (office, restaurant/retail, residential and hotel) submitted by Fortuitous, November 2020.

#### **One-Time Construction Impacts**

As shown in Table 1, Fortuitous's estimate of total Phase 1 project cost is approximately \$284.1 million.

Component	Estimated cost
Construction – hard costs	\$235,604,000
Construction – soft costs	\$48,530,000
Total	\$284,134,000

#### Table 1: Estimated Total Phase 1Project Cost

It is assumed that after accounting for contractor profits (assumed at 10 percent of total project cost), 60 percent of the project budget would be spent on materials and 40 percent on labor. Based on industry data, it is assumed that 60 percent of materials spending would occur within the State and 75 percent of labor expenditures would take place in the State.

The one-time net new economic impacts estimated to be associated with the construction of a new USLC stadium and ancillary development include:

- \$161.8 million in direct spending in the State;
- \$266.7 million in total output; and,
- 1,790 full and part-time jobs and that create approximately \$109.7 million in personal earnings.

These impacts are summarized on the following in Table 2. The project's *direct impact* is the impact of the company's direct spending on design and construction. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

#### Table 2: Summary of One-Time Phase 1 Construction Impacts

Impact on:	Direct	Indirect & Induced	Total
Jobs (FTEs)	1,080	710	1,790
Personal Earnings	\$71,554,000	\$38,178,000	\$109,732,000
Total Output	\$161,787,000	\$104,934,000	\$266,721,000

The activity reflected in Table 2 is estimated to occur from early 2021 through 2023.

The anticipated wage rates for construction jobs are shown on the following page in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island, as of 2019.

### Table 3: Anticipated Wages During Construction

Occupation	RI median hourly wage <sup>7</sup>
Architect	\$36.33
Construction manager	\$52.71
Carpenter	\$23.40
Electrician	\$28.06
Plumber	\$24.13
Painter	\$21.68
Laborer	\$24.30

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the State.

### Annual Recurring Impacts

### In-District Spending

Phase 1 facilities and business are anticipated to begin operating in 2023, reaching a stabilized year of operations by Year 4 (2026). The following table summarizes the annual spending and resulting impacts estimated to be generated from the ongoing operations of the Pawtucket Riverfront Redevelopment Project stadium and businesses.

# Table 4: Summary of Annual Recurring Economic Impacts Generated On-Site by the PawtucketRiverfront Redevelopment Project Phase 1, 2026

Impact on:	Direct	Indirect & Induced	Total
Jobs (FTEs)	538	91	629
Personal Earnings	\$34,179,000	\$5,171,000	\$39,350,000
Total Output	\$17,707,005	\$14,778,000	\$32,485,005

As outlined in the key assumptions, in-district spending consists of in-facility spending by patrons of the stadium on items such as admissions, concessions, merchandise and parking, as well as mixed-use business operations. Table 4 summarizes the net new economic impact to the State from in-district spending estimated to occur within the proposed stadium and businesses annually:

- \$17.7 million in net new direct spending;
- \$32.5 million in total output;
- 629 full and part-time jobs (FTEs); and,
- \$39.4 million in annual personal earnings.

<sup>&</sup>lt;sup>7</sup> Median wages cited in Table 3 are from Rhode Island Department of Labor and Training, Occupational Employment Statistics, 2019

Rhode Island Commerce Corporation Tidewater Landing & Division Street Development Net New Economic & Fiscal Impact Analysis February 5, 2021

### **Out-of-District Spending**

In addition to the operations of the proposed stadium and businesses, the Rhode Island economy will benefit from the out-of-district spending generated as a result of the Pawtucket Riverfront Redevelopment Project. Out-of-district spending includes all spending by visiting teams and spectators to the new USLC stadium, as well as office workers employed on-site and residents living in the apartment buildings.

As shown below in Table 5, it is estimated that in 2026 out-of-district spending will directly and indirectly support:

- \$5.7 million in net new direct spending;
- \$10.6 million in total output;
- 131 full and part-time jobs; and,
- \$4.8 million in annual earnings.

# Table 5: Summary of Annual Recurring Economic Impacts Generated Off-Site by the Pawtucket Riverfront Redevelopment Project Phase 1, 2026

Impact on:	Direct	Indirect & Induced	Total
Jobs (FTEs)	101	31	131
Personal Earnings	\$3,114,000	\$1,713,000	\$4,827,000
Total Output	\$5,709,000	\$4,848,000	\$10,557,000

### Impact on State Tax Revenues

The proposed project would generate state tax revenues through spending on construction, through the operations of proposed stadium and businesses, and through out-of-district spending by those patronizing the new USLC stadium and mixed-use businesses. The following table provides a summary of the net new fiscal impacts estimated to be generate to the State on an annual basis by type.

Table 6: Summary of Fiscal Impacts of Construction and Phase 1 Annual Operations Net New to		
the State, 2026		

Impact on:	Direct	Indirect & Induced	Total		
<b>Construction Impacts:</b>					
Sales Tax	\$5,343,000	\$2,448,000	\$7,791,000		
Personal Income Tax	\$2,545,000	\$1,018,000	\$3,563,000		
Corporate Income Tax	\$1,492,000		\$1,492,000		
Total	\$9,380,000	\$3,466,000	\$12,846,000		
In-District Annual Operations Impacts:					
Sales Tax	\$191,000	\$200,000	\$391,000		
Hotel Tax			\$0		
F&B Tax	\$648,000		\$648,000		
Corporate Income Tax	\$504,000		\$504,000		
Personal Income Tax	\$879,000	\$80,000	\$959,000		
Total	\$2,222,000	\$280,000	\$2,502,000		
Out-of-District Annual Operations Impacts:					
Sales Tax	\$199,000	\$69,000	\$268,000		
Hotel Tax	\$25,000		\$25,000		
F&B Tax	\$87,000		\$87,000

Personal Income Tax	\$99,000	\$28,000	\$127,000		
Total	\$410,000	\$97,000	\$507,000		

Overall, it is estimated that construction of the new USLC stadium and mixed-use businesses could generate approximately \$12.8 million to the State of Rhode Island. On an annual basis, the operations of the facility and businesses could generate approximately \$2.5 million from in-district activities and \$507,000 from out-of-district activities to the State in 2026.

### **Non-Quantifiable Impacts**

In addition to the more quantifiable benefits, some benefits related to the construction and operations of a new USLC stadium and mixed-use businesses on the riverfront in Pawtucket cannot be quantifiably measured. Potential qualitative benefits for the State of Rhode Island include:

- Enhanced activity across two underutilized sites on the riverfront in Pawtucket;
- Modern facility for a new USLC soccer team;
- Enhanced spectator event opportunities for citizens of the State of Rhode Island;
- Enhanced community pride, self-image, exposure and reputation;
- Increased opportunities for charitable programs and community outreach;
- New advertising/sponsorship opportunities for local area businesses;
- Enhanced economic growth and ancillary private sector development;
- Increased supply of office space in the City of Pawtucket;
- Increased supply of apartment units; and,
- Other such benefits.
