

Renewable Energy Fund: Commercial-Scale Program

Are you considering a large-scale solar project?

If you are a business, nonprofit, academic institution, municipal/state building or other large facility, you may be eligible for the REF grant program!

The Rhode Island Commerce Corporation can help you drastically lower your electric bills with grants for renewable energy that could cover up to 30% of renewable energy installation costs. Combined with the Federal Investment Tax Credit (ITC) of 30%, a grant from REF can bring payback periods down to 5 to 8 years, depending on the project.
