Are you:

- Currently enrolled at or a recent graduate from a Rhode Island college or university?
- Or can demonstrate proof of residency in Rhode Island if enrolled in another state?
- Interested in the clean energy industry?
- Looking for a paid internship experience?

Apply today for the Rhode Island Clean Energy Internship Program. Get valuable professional experience working for a clean energy industry company during a **12-week, paid internship!**

Interns are given the opportunity to:

- Participate in research projects
- Gather and analyze data
- Attend virtual meetings and conferences
- Learn about the clean energy industry
- meet their peers during mandatory Career Readiness Workshops that will take place this summer!
